

CAS 6290-03-5 Raw Cosmetic Ingredients pure R 1 3 **Butanediol**

Basic Information

- Place of Origin:
- Brand Name:
- 6290-03-5 Model Number: • Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton. • Delivery Time: 7-15days

China FIRSKY

• Payment Terms: T/T, Western Union, MoneyGram

2000T

• Supply Ability:

Product Specification

- Product Name:
- CAS NO:
- (R)-(-)-1,3-Butanediol 6290-03-5

C4H10O2 90.12

- Molecular Formula:
- Molecular Weight:
- Highlight:
- 6290-03-5 Raw Cosmetic Ingredients, Raw Cosmetic Ingredients Pure, Pure R 1 3 Butanediol

(R)-(-)-1,3-Butanediol CAS 6290-03-5

Description

(R)-(-)-1,3-Butanediol, also referred to as just (R)-butanediol or (R)-(-)-butane-1,3-diol, is a chiral molecule that falls within the diol class. Being one of the two mirror-image forms of the same chemical substance, it is an enantiomer of 1,3-butanediol. C₄H₁ $_{0}$ O₂ is the molecular formula for (R)-(-)-1,3-Butanediol.

Application

1,3-(R)-(-)However, butanediol is a necessary step in the production of several pharmaceuticals. In order to produce medications with a specified enantiomeric purity, the chirality of the molecule is essential since different enantiomers may have distinct pharmacological or biological effects.

Synthetic Chemistry: (R)-(-)-1,3-One of the building blocks used in the synthesis of other compounds is butanediol. Because of its chiral center, molecules that are enantiomerically pure for certain uses can be produced by influencing the stereochemistry of the products created in subsequent reactions.

tastes & perfumes: Because of the compound's mildly pleasant taste and minimal toxicity, tastes and perfumes are produced using it. It can improve the organoleptic qualities of a variety of food and beverage products.

Specialty Polymers: Specialty polymers with distinct properties and uses are synthesized using (R)-(-)-1,3-Butanediol. Different physical and chemical properties of the polymer can result from the chiral center in the molecule influencing its structure.

Research and Development: The molecule is frequently used to study chiral chemistry, asymmetric synthesis, and the characteristics of enantiomers in research labs and academic settings.

Advantage

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.

2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.

3.After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

- 1. Please let me know which products you require and how many of each you need.
- 2. We will provide you with the best pricing right away, including delivery charges.
- 3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
- 4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
- 5. Two days after the package is sent out, a tracking number and packing photo will be provided.
- 6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
