

CAS 504-63-2 Raw Cosmetic Ingredients 1 3 Propanediol C3H8O2

Our Product Introduction

for more products please visit us on firskytech.com

Basic Information

- Place of Origin: China
- Brand Name: FIRSKY
- Model Number: 504-63-2
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

Product Specification

- Product Name: 1,3-Propanediol
- CAS NO: 504-63-2
- Molecular Formula: C3H8O2
- Molecular Weight: 76.09
- Highlight: **CAS 504-63-2 Raw Cosmetic Ingredients, Raw Cosmetic Ingredients 1 3 Propanediol, 1 3 Propanediol C3H8O2**

Product Description

1,3-Propanediol CAS 504-63-2

Description

The chemical compound 1,3-propanediol, or trimethylene glycol, has the molecular formula C₃H₈O₂. It is a colorless, odorless liquid that is a member of the glycol class of diols. There are numerous uses for 1,3-propanediol in a variety of industries, such as food, personal care, cosmetics, and industrial operations.

Application

1. Humectant and Moisturizer: 1,3-propanediol is frequently utilized as a humectant and moisturizer in skincare and haircare products. It aids in drawing in and holding onto moisture, hydrating the skin and hair. It helps to enhance their general moisturization, texture, and look.

2. Solvent: In various formulations, 1,3-propanediol serves as a solvent. It helps to make stable and homogenous mixes by dissolving a variety of constituents, including active chemicals, perfumes, and preservatives.

3. Food and Beverage Industry: 1,3-Propanediol is utilized in this sector as a flavor carrier and food enhancer. It can be present in a variety of things, such as processed meals, dairy products, baked goods, and beverages. It can aid in enhancing flavors, preserving moisture, and improving texture.

4. Industrial Uses: 1,3-Propanediol is utilized in a number of industrial procedures. It can be employed as a chemical intermediary in the synthesis of various chemical compounds, resins, and polymers. In industrial systems, it is also used as a heat transfer fluid and as a component of deicing and antifreeze solutions.

5. Eco-Friendly Substitute: 1,3-propanediol has drawn notice as a sustainable substitute for some petroleum-derived substances. It can be produced using sustainable alternatives like glycerol, corn, or sugar cane, which lessens the need for fossil fuels.

It's crucial to remember that 1,3-Propanediol's precise application and safety requirements can change based on the sector and application. It is advisable to abide by the rules and regulations established by the appropriate authorities and to get specialized guidance and recommendations from professionals or experts in the relevant disciplines.

Advantage

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.

2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.

3. After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often.

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For

the most up-to-date tracking updates, please go to our preferred site.
