

C8H16O5 Anti Aging Ingredients Pro Xylane In Skincare CAS 439685-79-7

Our Product Introduction

for more products please visit us on firskytech.com

Basic Information

- Place of Origin: China
- Brand Name: FIRSKY
- Model Number: 439685-79-7
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

Product Specification

- Product Name: Pro-xylane
- CAS NO: 439685-79-7
- Molecular Formula: C8H16O5
- Molecular Weight: 192.21
- Formulation: Cream
- Highlight: Anti Aging Ingredients Pro Xylane, C8H16O5 Anti Aging Ingredients, Pro Xylane In Skincare 439685-79-7

Product Description

Pro-xylane CAS 439685-79-7

Product Name:	Pro-xylane
Synonyms:	(2S,3R,4S,5R)-2-(2-hydroxypropyl)oxane-3,4,5-triol; Nano liposomal hydroxypropyl tetrahydropyrantriol; Retinol Pro+Pro-xylane; Pro-Xylane, Puri-Xylane; HYDROXYPROPYL TETRAHYDROPYRANTRIOL; Puri-Xylane; Nano Liposomal HYDROXYPROPYL TETRAHYDROPYRANTRIOL; Tetrahydropyrantriol
CAS:	439685-79-7
MF:	C8H16O5
MW:	192.21
EINECS:	456-880-5
Boiling point	376.0±42.0 °C(Predicted)
density	1.368±0.06 g/cm3(Predicted)
vapor pressure	0Pa at 25
storage temp.	Store at -20°C
color	White powder

Description

Pro-Xylane, CAS 439685-79-7: Elevating Skin Health and Beauty

Embark on a journey to discover the remarkable world of Pro-Xylane, CAS 439685-79-7, a powerful compound that lies at the forefront of skincare and beauty innovations.

Skin Rejuvenation: Pro-Xylane is a key ingredient in skincare products renowned for its ability to promote skin rejuvenation. It supports the production of essential molecules in the skin's matrix, enhancing firmness and elasticity.

Anti-Aging Marvel: This compound is celebrated for its anti-aging properties. It helps reduce the appearance of fine lines and wrinkles, resulting in a more youthful and radiant complexion.

Hydration and Moisture: Pro-Xylane is also valued for its capacity to boost skin hydration. It strengthens the skin's barrier, locking in moisture and preventing dehydration.

Dermatological Advancements: Dermatologists and skincare experts recognize Pro-Xylane's role in cutting-edge formulations designed to address a wide range of skin concerns, from sagging skin to uneven texture.

Scientific Excellence: Understanding the significance of Pro-Xylane, CAS 439685-79-7, underscores its importance in the world of skincare and dermatology. It exemplifies the marriage of scientific innovation and beauty enhancement.

Whether you're a skincare enthusiast seeking the latest breakthroughs in anti-aging solutions, a dermatologist utilizing advanced ingredients, or someone committed to radiant and healthy skin, unveiling the potential of Pro-Xylane offers profound insights into its role in elevating skin health and beauty.

Your journey to discover the significance of this compound, from its transformative effects on skin to its applications in dermatological advancements, begins here. Delve into its uses to gain a deeper understanding of its pivotal place in the pursuit of youthful and radiant skin. Unleash the full potential of your knowledge and embrace the beauty of scientific innovation.

Application

Pro-Xylane, with the CAS number 439685-79-7, is a proprietary ingredient developed by L'Oréal for use in their skincare products. It is a patented molecule derived from xylose, a naturally occurring sugar.

Pro-Xylane is primarily used in anti-aging skincare products and is claimed to have multiple benefits for the skin. Some of its reported usages include:

Anti-aging and wrinkle reduction: Pro-Xylane is marketed as an ingredient that can help reduce the appearance of wrinkles and fine lines. It is claimed to stimulate the production of glycosaminoglycans (GAGs) in the skin, which are natural moisturizers and skin-plumping agents. By increasing GAG synthesis, Pro-Xylane may help improve skin firmness and elasticity, resulting in a smoother and more youthful appearance.

Skin hydration: Pro-Xylane is also promoted for its moisturizing properties. It is believed to enhance the skin's ability to retain moisture, leading to improved hydration and a more supple complexion.

Skin texture improvement: Some skincare products containing Pro-Xylane claim to refine skin texture and improve overall skin quality. It is suggested to help smooth the skin's surface and promote a more even skin tone.

It's worth noting that Pro-Xylane is a trademarked ingredient exclusively used by L'Oréal in their products. As such, detailed information about its exact mechanism of action and comprehensive scientific studies may not be readily available to the public. If you are interested in using skincare products containing Pro-Xylane, it is recommended to consult the product's packaging or L'Oréal's official literature for more specific information on its usage and benefits.

Advantage

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.

2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.

3. After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often.

1. Please let me know which products you require and how many of each you need.

2. We will provide you with the best pricing right away, including delivery charges.

3. If the price seems reasonable to you, you can select a payment option to complete the transaction.

4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
