

Hoodia Cactus PE Plant Extract Weight Loss CAS 8007-78-

1

Our Product Introduction

for more products please visit us on firskytech.com

Basic Information

- Place of Origin: China
- Brand Name: FIRSKY
- Model Number: 8007-78-1
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

Product Specification

- Product Name: Hoodia Cactus P.E.
- CAS NO: 8007-78-1
- Highlight: Hoodia Cactus Plant Extract Weight Loss, Plant Extract Weight Loss CAS 8007-78-1

Product Description

Hoodia Cactus P.E. CAS 8007-78-1

Description

Hoodia Cactus P.E. refers to an extract derived from the Hoodia cactus, specifically from the plant species Hoodia gordonii. Hoodia gordonii is a succulent plant native to the Kalahari Desert in Africa and is known for its potential appetite-suppressing properties. The extract is obtained from the stem of the cactus and is commonly used in dietary supplements marketed for weight management.

Application

1. Appetite Suppression: Hoodia Cactus P.E. is primarily associated with its potential to suppress appetite. It contains naturally occurring compounds, such as the active ingredient P57, which are believed to influence the hypothalamus, the part of the brain responsible for regulating hunger and satiety. It is thought that these compounds may help decrease appetite and promote a feeling of fullness. 2. Weight Management: Due to its purported appetite-suppressing effects, Hoodia Cactus P.E. is commonly used in dietary supplements aimed at supporting weight management. It is believed that by reducing appetite and calorie intake, it may assist individuals in achieving their weight loss goals. However, it's important to note that scientific evidence supporting the effectiveness of Hoodia Cactus P.E. for weight management is limited, and further research is needed. 3. Traditional Use: Hoodia gordonii has a history of traditional use by the San people of Southern Africa to suppress hunger during long hunting trips or times of food scarcity. They would consume the plant to reduce appetite and thirst. This traditional knowledge has contributed to the plant's reputation and subsequent commercialization. It's important to note that while Hoodia Cactus P.E. may be marketed for appetite suppression and weight management, the scientific evidence supporting its effectiveness and safety is limited. Additionally, the quality and purity of Hoodia Cactus products can vary, so it's crucial to choose reputable sources and consult with a healthcare professional before starting any new supplement regimen. If considering the use of Hoodia Cactus P.E. or products containing it, it is advisable to consult with a healthcare professional or registered dietitian for guidance. They can provide personalized advice based on your specific circumstances and help you make informed decisions about your weight management goals.

Advantage

1. Firsky (Wuhan) keeps working to provide customers with high-quality products steadily. We have established a sound internal quality management system and are constantly striving to improve quality, reduce deviation and waste. 2. If you have any questions, please feel free to ask questions, we will reply to your questions within 48 hours. 3. If you have any questions after receiving the goods, please feel free to contact us. If the loss is caused by us, we guarantee 100% compensation.
