Product Description

Cranberry extract

Description

Cranberry Extract is derived from the fruit of *Vaccinium macrocarpon*, a small red berry commonly known for its potential health benefits. This extract is rich in proanthocyanidins, flavonoids, and vitamins. In cosmetic formulations, Cranberry Extract is well-regarded for its antioxidant properties. It helps protect the skin from free radicals, environmental pollutants, and UV-induced damage, promoting a more youthful and healthy-looking complexion. Additionally, Cranberry Extract is believed to have mild astringent properties, contributing to its ability to refine the appearance of pores and balance skin oil production. Its soothing and anti-inflammatory effects make it beneficial for addressing sensitive and irritated skin.

Application

Antioxidant Skincare: Cranberry Extract is commonly used in antioxidant-rich skincare products, including serums, creams, and masks, to provide protection against oxidative stress and support overall skin health. **Pore Minimizing Products:** The extract is included in products aimed at refining and minimizing the appearance of pores, resulting in a smoother and more balanced complexion. **Sensitive Skin Formulations:** Cranberry Extract is found in skincare products designed to soothe and calm sensitive and irritated skin, reducing redness and discomfort.

Advantage

1. Firsky (Wuhan) keeps working to provide customers with high-quality products steadily. We have established a sound internal quality management system and are constantly striving to improve quality, reduce deviation and waste.
2. If you have any questions, please feel free to ask questions, we will reply to your questions within 48 hours.
3. If you have any questions after receiving the goods, please feel free to contact us. If the loss is caused by us, we guarantee 100% compensation.
