Product Description

Sheep placenta

Description

Derived from the placenta of sheep, sheep placenta extract is a potent mixture of nutrients, growth hormones, and bioactive substances. Because of its possible health benefits, especially in boosting overall well-being and skin regeneration, it has been employed in traditional medicine.

Sheep placenta is frequently used in cosmetic compositions because of its alleged anti-aging benefits. It is thought to improve skin suppleness, encourage the formation of collagen, and lessen the visibility of fine lines and wrinkles.

Amino acids, vitamins, and minerals are other components of sheep placenta extract that support its skin-nourishing and skin-rejuvenating properties.

Application

Anti-Aging Skincare: To encourage skin renewal, lessen the appearance of aging, and enhance general skin condition, sheep placenta is frequently incorporated into anti-aging skincare products like serums, lotions, and masks.

Formulations for Skin Brightening: The extract is incorporated into cosmetics meant to balance and brighten skin tones, giving the appearance of more radiant skin.

Supplements for Well-Being: Sheep placenta is utilized in supplements for well-being to promote general health and energy, including skin health and renewal.
