- Product Name: Butterfly Pea Extract Powder
- Country Of Origin: China
- Ingredients: Natural Plant Extracts
- Shelf Life: 2 Years
- Type: Powder
- Highlight: **Butterfly Pea Extract Powder 2 Years, Clitoria Ternatea Butterfly Pea Extract Powder**

Product Description

Butterfly Pea Extract Powder

Description

The plant known as *Clitoria ternatea*, or butterfly pea or blue pea flower, produces the powdered extract of butterfly pea. The flowers are ground into a powder and then processed to extract the flavor.

Butterfly pea blooms are prized for their vivid blue hue and have long been employed in Southeast Asian herbal medicines, drinks, and food preparation.

Principal Elements: Natural and botanical: The powdered butterfly pea extract is made from the plant's blooms, guaranteeing its natural and botanical nature.

Rich in Antioxidants: The extract's bright blue hue and possible health advantages are partly due to its high concentration of antioxidants, which include anthocyanins.

Butterfly pea extract powder dissolves readily in water, which makes it useful for incorporating into a variety of drinks and food recipes.

Application

Benefits to Health:

Properties of Antioxidants: The antioxidants in powdered butterfly pea extract assist in shielding cells from oxidative stress and may be advantageous to general health and wellbeing.

Impact on Inflammation: Research indicates that the extract from butterfly peas may have anti-inflammatory qualities, perhaps aiding in the reduction of inflammation within the body.

Cognitive Support: It is thought that butterfly pea extract may contain qualities that improve cognition and promote memory and brain health.

Eye Health: Anthocyanins, one type of antioxidant found in butterfly pea extract, may be beneficial to the health and eyesight of the eyes.

Relaxation and Mood Support: Due to its possible relaxing and mood-enhancing benefits, butterfly pea extract is occasionally utilized in traditional medicine.

Utilization:

Herbal Teas and Infusions: Vibrant blue herbal teas and infusions are frequently made with powdered butterfly pea extract. The color may turn pink or purple when coupled with acidic substances like lemon juice because of the pH response.

Uses in Cooking: It can be used to a range of dishes, such as baked products, desserts, drinks, and sauces, to act as a natural food coloring.

Beauty and Skincare Products: Due to its possible anti-inflammatory and antioxidant properties for the skin, butterfly pea extract is occasionally added to skincare products.

Natural Dye: Butterfly pea extract powder's vivid blue hue makes it a good choice for natural coloring things like textiles and crafts.

Advantage

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.

2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.

3. After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often.

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
