Product Description

Brightening Powder with Kojic Acid CAS 79725-98-7 Dipalmitate for Skin Whitening

Product Name:	Kojic acid
Synonyms:	4H-Pyran-4-one, 5-hydroxy-2-(hydroxymethyl)-;4H-Pyran-4-one,5-hydroxy-2-(hydroxymethyl)-;5-hydroxy-2-(hydroxymethyl)-4h-pyran-4-on;kojic;Pyran-4-one, 5-hydroxy-2-(hydroxymethyl);2-HYDROXYMETHYL-5-HYDROXY-4-PYRONE;5-Hydroxy-2-(hydroxymethyl)-γ-pyrone;Kojic acid
CAS:	501-30-4
MF:	C6H6O4
MW:	142.11
EINECS:	207-922-4
Melting point	152-155 °C (lit.)
Boiling point	179.65°C (rough estimate)
density	1.1712 (rough estimate)
refractive index	1.4434 (estimate)
storage temp.	Store below +30°C.
solubility	DMSO (Slightly), Methanol (Slightly, Sonicated)
pka	7.9(at 25)
form	Crystalline Powder
color	White to beige-brown

Description

Radiate Confidence with Kojic Acid - CAS 79725-98-7

Unlock the secret to brighter, more youthful skin with Kojic Acid, CAS 79725-98-7. Say goodbye to dark spots and uneven skin tone, and hello to a complexion that exudes confidence.

Illuminate Your Skin:

Kojic Acid, CAS 79725-98-7, is your key to radiant beauty. This powerful ingredient penetrates deep into your skin, reducing the appearance of dark spots, sun damage, and pigmentation irregularities. Illuminate your skin's natural glow.

Even Tone, Even Confidence:

Achieve a flawless complexion that reflects your inner confidence. Kojic Acid, CAS 79725-98-7, evens out skin tone, making you feel beautiful and ready to take on the world.

Sun-Kissed, Safely:

Enjoy the sun without worry. Our Kojic Acid, CAS 79725-98-7, not only brightens your skin but also offers a mild level of UV protection, shielding your skin from the sun's harmful rays.

Skin Defense:

Kojic Acid, CAS 79725-98-7, acts as a formidable ally against external aggressors. It fortifies your skin's natural defenses, helping it stay resilient and healthy.

Our Kojic Acid is derived from nature and formulated to be gentle on your skin. It's free from harsh chemicals, making it suitable for all skin types.

Your Path to Radiance:

Whether you're dealing with stubborn dark spots, melasma, or you simply desire a more youthful complexion, Kojic Acid, CAS 79725-98-7, is your route to radiant beauty.

Experience the Transformation:

Don't wait any longer to reveal your skin's true potential. Make Kojic Acid, CAS 79725-98-7, a staple in your skincare routine and embrace the confident, radiant you.

Elevate Your Beauty Game:

Join the countless individuals who have experienced the magic of Kojic Acid, CAS 79725-98-7. Order now and take the first step towards a brighter, more youthful you. Your journey to radiant beauty begins today!

Application

Kojic acid is a naturally derived compound that has a range of uses in various industries. Here are some common applications and uses of kojic acid:

- Skincare:** Kojic acid is widely used in skincare products for its skin-lightening and brightening properties. It helps to inhibit the production of melanin, the pigment responsible for dark spots, hyperpigmentation, and uneven skin tone. Kojic acid is often found in creams, serums, and soaps targeting issues like age spots, melasma, and sun damage.
- Cosmetics:** Due to its skin-brightening effects, kojic acid is used in cosmetic formulations, such as foundations, concealers, and BB creams, to create a more even and radiant complexion. It can also be found in products like facial masks, toners, and spot treatments.
- Food Industry:** Kojic acid is utilized in the food industry as a natural preservative and antioxidant. It helps prevent the growth of bacteria, fungi, and yeasts, thereby extending the shelf life of certain food products. Additionally, kojic acid is involved in the fermentation process for the production of various foods, such as soy sauce, miso, and sake.
- Haircare:** Kojic acid can be found in some haircare products, including shampoos and conditioners. It is believed to help reduce oxidative stress on the scalp and promote healthier hair growth. Kojic acid may also assist in maintaining the color and vibrancy of dyed or chemically treated hair.
- Medical and Pharmaceutical Applications:** Kojic acid is sometimes used in the medical and pharmaceutical industries. It can be found in certain topical medications, ointments, and creams for treating skin conditions like fungal infections and hyperpigmentation disorders. However, it is important to note that medical usage should be under the guidance of a healthcare professional.

It is crucial to follow the recommended guidelines and usage instructions provided by manufacturers when incorporating kojic acid into skincare or cosmetic routines. Additionally, it is advisable to perform a patch test prior to using products containing kojic acid to check for any potential skin sensitivities or allergic reactions.

Advantage

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.
2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.
3. After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often.

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
