

5343-92-0 Skin Moisturizer Ingredients 1 2 Pentanediol In Cosmetics

Basic Information

- Place of Origin: China
- Brand Name: FIRSKY
- Model Number: 5343-92-0
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

Product Specification

- Product Name: 1,2-Pentanediol
- CAS NO: 5343-92-0
- Molecular Formula: $C_5H_{12}O_2$
- Molecular Weight: 104.15
- Highlight: 5343-92-0 Skin Moisturizer Ingredients, Skin Moisturizer Ingredients 1 2 Pentanediol, 1 2 Pentanediol In Cosmetics

Product Description

1,2-Pentanediol CAS 5343-92-0 aging skin care

Description

The diol molecule pentylene glycol, often known as 1,2-pentanediol, has a backbone made up of straight-chain carbon atoms. It consists of two hydroxyl (OH) groups attached to different carbon atoms. The material is a white, thick liquid with a light odor. Because it is miscible with water and various organic solvents, it can be used as a flexible constituent in a range of applications. The material is made using contemporary synthesis procedures, which ensures its high purity and consistent quality.

Application

1,2-Pentanediol is widely used in the personal care industry, particularly in the formulation of makeup, skincare, and hair care products. Its ability to attract and retain moisture due to its humectant and emollient properties gives skin and hair hydration and a smooth, silky texture. Additionally, it enhances the formulations' sensory appeal and stability, which elevates the whole user experience.

Industrial Applications: 1,2-Pentanediol is a solvent and coalescing agent used in paint and coating compositions for a range of chemical reactions. It works as a solvent in synthesis reactions, assisting in the dissolution and movement of reactants. As a coalesce agent, it promotes the fusion of polymer particles during the drying process, which improves the adhesion and longevity of the coating.

Preservative and antibacterial: 1,2-Pentanediol exhibits antibacterial properties and is utilized as a preservative in certain cosmetic and personal care products. By preventing the growth of mold, bacteria, and yeasts, it contributes to extending the items' shelf life.

Advantage

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.

2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.

3. After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often.

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
