

FIRSKY Natural Plant Extracts Dipotassium Glycyrrhizinate Skin CAS 68797-35-3

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: FIRSKY
- Model Number: 68797-35-3
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

Product Specification

- Product Name: Dipotassium Glycyrrhizinate
- CAS NO: 68797-35-3
- Molecular Formula: C₄₂H₆₃KO₁₆
- Molecular Weight: 863.05
- Highlight: **FIRSKY Plant Extracts,
Natural Plant Extracts Dipotassium
Glycyrrhizinate
, Dipotassium Glycyrrhizinate Skin 68797-35-3**

Product Description

Dipotassium Glycyrrhizinate CAS 68797-35-3 natural plant extracts

Description

A forger Glycyrrhizinate is a natural chemical extracted from the roots of licorice (*Glycyrrhiza glabra*). It is well known for its skin-soothing and anti-inflammatory properties.

To soothe and relieve skin irritation, redness, and itching, dipotassium glycyrrhizinate is commonly used in cosmetic formulations. It helps those with reactive and sensitive skin by improving the skin's barrier function.

Because it possesses skin-lightening properties, this chemical is useful in reducing hyperpigmentation and producing a more even skin tone.

Application

Dipotassium glycyrrhizinate, with the CAS number 68797-35-3, is a compound derived from licorice root extract. It is commonly used in skincare and cosmetic goods due to its anti-inflammatory and calming qualities. Here are some of its most common applications:

Dipotassium glycyrrhizinate is frequently used in cosmetics formulations due to its anti-inflammatory and calming properties. It can relieve skin irritation, redness, and itching. It is typically included in skin care products for sensitive or reactive skin, as well as formulations for disorders such as eczema, dermatitis, and rosacea.

Dipotassium glycyrrhizinate can also be found in oral care products like toothpaste and mouthwash. It's included because of its anti-inflammatory and antibacterial characteristics, which can help soothe oral tissues and reduce inflammation.

Hair care products may contain dipotassium glycyrrhizinate due to its possible advantages to the scalp and hair. It is thought to offer qualities that can calm the scalp, relieve itching, and encourage stronger hair development. However, the specific efficacy and advantages for hair care may differ, and more research in this area is required.

It is crucial to note that if you have any specific skin issues or conditions, you should check with a dermatologist or healthcare expert before utilizing dipotassium glycyrrhizinate-containing products. They can offer individualized advice and guidance based on your specific needs and assist in determining whether it is appropriate for your skincare routine.

Advantage

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.
2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.
3. After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
