

1,5-Pentanediol/Pdo 15 Pdo with Good Price CAS 111-29-5

Basic Information

- Place of Origin: China
- Brand Name: Firsky
- Model Number: FS-111-29-5
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

Product Specification

- Product Name: 1,5-Pentanediol
- CAS NO: 111-29-5
- Purity: 99%
- Shelf Life: 2 Years

Product Description**Specifications:**

Chemical Name	1,5-Pentanediol
Synonyms	1,5-Dihydroxypentane; 1,5-Pentamethylene Glycol; NSC 5927; Pentamethylene Glycol; Pentylene Glycol; α,ω -Pentanediol; ω -Pentanediol
CAS Number	111-29-5
Molecular Formula	C ₅ H ₁₂ O ₂
Appearance	Clear Colourless Oil to Thick Oil
Molecular Weight	104.15
Storage	20°C
Solubility	Methanol (Slightly)
Category	Building Blocks; Miscellaneous;
Applications	1,5-Pentanediol is used as a reagent in the total synthesis of (+)-Rubrifordilactone A, a nortriterpenoid natural product. 1,5-Pentanediol is also the starting material in the synthesis of Pseudomonic Acid D Sodium (P839520); an antibiotic isolated from <i>Pseudomonas fluorescens</i> .

Description:

1,5-Pentanediol, CAS 111-29-5, is a high-value chemical raw material with wide applications in various industries. Below is a detailed product description of this versatile molecule:

1,5-Pentanediol is a colorless to slightly yellow viscous liquid with a molecular formula of C₅H₁₂O₂ and a molecular weight of 100.1. The density is 1.022 g/cm³, the melting point is 17-19°C, and the boiling point is 225°C under normal pressure. It is soluble in water and most common organic solvents.

1,5-Pentanediol is prepared via a multistep synthetic route that involves the reaction of acetylene with carbon monoxide in the presence of a catalyst. The obtained product is subjected to purification steps to obtain the desired compound. This compound has important industrial applications as it serves as a building block for the synthesis of a variety of organic compounds, personal care products, and other specialty chemicals.

One of the main applications of 1,5-pentanediol is in the production of cosmetics and personal care products. It is used as a humectant and emollient in creams, lotions and moisturizers to keep skin soft and hydrated. It also acts as a solvent and viscosity reducer in various hair care products such as shampoo and conditioner. Additionally, because of its ability to bind water and other tissues, it can be used as a filler and wrinkle remover in cosmetic surgeries.

1,5-Pentanediol can also be used to produce biodiesel fuel. Due to its similar physical and chemical properties, it can be used as a replacement for conventional diesel. It can also be used as an additive to improve the performance of lubricating oils and greases.

Application:

1,5-Pentanediol, also known as 1,5-pentanediol, has a wide range of uses. As a high-value chemical feedstock, it is used in a variety of industries including cosmetics, personal care products and biodiesel production.

1. Use as a humectant and emollient to keep skin soft and hydrated. It is also a solvent and viscosity reducer in various hair care products such as shampoos and conditioners. Additionally, it is used as a filler and wrinkle remover in cosmetic surgeries due to its ability to bind water and other tissues.

2. As a substitute for traditional diesel. It can also be used as an additive to improve the performance of lubricating oils and greases.

3. Used in the production of polyester, polyamide and polyurethane, with various applications in industries such as textiles, packaging, coatings, adhesives, sealants and insulation materials.

1,5-Pentanediol is a colorless to slightly yellow viscous liquid with a molecular formula of C₅H₁₂O₂ and a molecular weight of 100.1. The density is 1.022 g/cm³, the melting point is 17-19°C, and the boiling point is 225°C under normal pressure. It is soluble in water and most common organic solvents.

Advantage:

1.Firstky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.

2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.

3.After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

FAQ:**How do I make a purchase?**

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

1. Please let me know which products you require and how many of each you need.

2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
