Specifications:

Product Name:	Bilberry Extract
Synonyms:	Bilberry, extracts;Powdered Bilberry Extract;Powdered Bilberry Extract (500 mg);Ccris 8716;Einecs 281-983-5;Extract of bilberry;Extract of whortleberry;Myrtocyan
CAS:	84082-34-8
MF:	C27H31O16
MW:	611.53
EINECS:	281-983-5
Appearance:	purple powder
Uses	In jams and jellies; food flavoring. Extracts as astringent and capillary protectant in eyecare and skin products.

Description:

Bilberry extract is a natural plant extract extracted from the bilberry plant Vaccinium myrtillus and is rich in polyphenolic compounds. Below is a detailed product description of bilberry extract, an excellent ingredient with numerous applications:

Bilberry extract is a dark brown to black powder or liquid with a strong flavor and high viscosity. Insoluble in water, soluble in organic solvents such as ethanol and methanol. The main polyphenolic compound in bilberry extract is anthocyanins, which account for approximately 20% to 30% of the total phenolic content.

An important application of bilberry extract is as a dietary supplement and food additive. Bilberry extract is rich in anthocyanins, which have been shown to have strong antioxidant activity. It can be used as a natural preservative to extend the shelf life of a variety of foods, such as juices, jams and salad dressings. In addition, lingonberry extract is used as a flavoring agent in beverages, yogurt, and baked products to impart a rich, fruity flavor.

In the nutraceutical industry, bilberry extract is marketed as a supplement to support cardiovascular health and overall wellbeing. It is thought to help reduce the risk of certain chronic diseases, such as cardiovascular disease and diabetes, by acting as an antioxidant and anti-inflammatory agent. Bilberry extract has also been shown to have anti-inflammatory activity, making it a beneficial ingredient in oral care products and cough syrups.

In cosmetics, bilberry extract is used as an antioxidant and UV protectant in creams, lotions, and sunscreens to combat oxidative damage and UV-induced skin aging. It can also be used in hair care products to give strands a rich purple color and UV protection.

Application:

Bilberry extract is a natural plant extract extracted from the bilberry plant and has a wide range of applications in different fields.

1. An important application of bilberry extract is as a dietary supplement and food additive. Bilberry extract is rich in anthocyanins, which have been shown to have strong antioxidant activity. As a natural preservative, it can help extend the shelf life of a variety of foods, such as juices, jams and salad dressings, while also imparting a rich, fruity flavor to beverages, yogurt and baked products.

2. In the nutraceutical industry, bilberry extract is marketed as a supplement to support cardiovascular health and overall wellbeing. Its antioxidant and anti-inflammatory properties may help reduce the risk of chronic diseases such as cardiovascular disease and diabetes. In addition, bilberry extract has been shown to have anti-inflammatory activity, making it a beneficial ingredient in oral care products and cough syrups.

3. Cosmetic companies use bilberry extract in creams, lotions and sunscreens as an antioxidant and UV protectant to fight oxidative damage and UV-induced skin aging. It can also be used in hair care products to give strands a rich purple color and UV protection.

The stability of bilberry extract under different conditions has been extensively studied and it is known to be sensitive to light, heat and oxygen exposure. To maintain its stability and potency, bilberry extract should be stored in dark bottles and protected from light, heat, and oxygen.

In summary, bilberry extract is a natural plant extract extracted from the bilberry plant that has a wide range of uses in the nutraceutical, cosmetic and food industries due to its antioxidant, anti-UV, anti-inflammatory, flavoring and antiseptic properties. application. To maintain its stability and potency, it should be stored under appropriate conditions to protect it from exposure to light, heat, and oxygen.

Advantage:

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.

2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.

3.After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

1. Please let me know which products you require and how many of each you need.

- 2. We will provide you with the best pricing right away, including delivery charges.
- 3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
- 4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
- 5. Two days after the package is sent out, a tracking number and packing photo will be provided.
- 6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
