Basic Information

- Place of Origin: China
- Brand Name: Firsky
- Model Number: FS-85507-69-3
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

Product Specification

- Product Name: Aloe Vera
- CAS NO: 85507-69-3
- Purity: 99%
- Shelf Life: 2 Years

Product Description

Specifications:

Product Name:	Aloe vera
Synonyms:	ALOE VERA;Aloe vera, ext.;Aloin from Aloe Vera - 20%;Aloeextractacc.;Aloeveradryextract;ALOEVERA,200:1,POWDER;ALOEVERA,FREEZEDRIDEPOWDER;ALOEVERA,LUMP,USP
CAS:	85507-69-3
MF:	C16H13NO3
MW:	267.27932
EINECS:	287-390-8
density	0.688g/cm3 at 23.3
form	Solid:crystalline

Description:

Aloe vera, also known as the "Queen of the Herbs", is a widely used natural plant extract that contains numerous biologically active compounds. Here is a detailed product description of Aloe vera, CAS 85507-69-3, a remarkable ingredient with various applications:

Aloe vera is a succulent plant that contains a transparent gelatinous pulp inside its leaves. The gelatinous pulp contains water, glucomannan, mannose, amino acids, vitamins, minerals, and other biologically active compounds. It has a bitter taste and greenish-yellow color. Aloe vera is commonly used as a natural medicine, cosmetic ingredient, and dietary supplement.

One significant application of Aloe vera is its use as a dietary supplement and food additive. The gelatinous pulp of Aloe vera can be added to various food products, such as beverages, yogurts, and juices, to provide health benefits. It is rich in nutrients and has been shown to possess antioxidant, anti-inflammatory, and immunomodulatory properties. Aloe vera can also help maintain digestive health by stimulating bowel movement and decreasing constipation.

In the nutraceutical industry, Aloe vera is marketed as a supplement to support overall health and well-being. It is used as a natural laxative to treat constipation and improve bowel function. Additionally, Aloe vera has been shown to possess antiviral and antibacterial properties, making it useful in the treatment of various infections and skin diseases.

In cosmetics, Aloe vera is used as a key ingredient in many creams, lotions, and masks to provide moisturizing and soothing effects to the skin. The gelatinous pulp contains numerous nutrients that are beneficial for skin health, including vitamins C and E, zinc, copper, and amino acids. Aloe vera can help improve skin tone, texture, and elasticity while reducing fine lines and wrinkles.

Application:

CAS 85507-69-3, designated Aloe vera, is a widely used natural plant extract containing a variety of bioactive compounds. It is commonly known as the "Queen of Herbal Medicine" and has a wide range of applications in different fields.

1. An important application of CAS 85507-69-3 is as a dietary supplement and food additive. The gelatinous pulp of aloe vera can be added to a variety of foods, such as beverages, yogurt, and juices, to provide health benefits. It is rich in nutrients, including amino acids, vitamins, minerals and other bioactive compounds, and has been shown to have antioxidant, anti-inflammatory and immunomodulatory properties. Aloe vera can help maintain digestive health by stimulating bowel movements and reducing constipation, making it a beneficial ingredient in functional foods and dietary supplements designed to support overall health and well-being.
2. In the nutraceutical industry, CAS 85507-69-3 is marketed as a supplement to support overall health and well-being. It is used as a natural laxative to treat constipation and improve bowel function, and has been shown to have antiviral and antibacterial properties and can be used to treat a variety of infections and skin conditions. Additionally, aloe vera can aid weight loss by promoting a feeling of fullness and reducing cravings for unhealthy foods.
3. In cosmetics, aloe vera is used as a key ingredient in many creams, lotions, and masks to provide moisturizing and soothing effects to the skin. The gelatinous pulp contains a variety of nutrients that are beneficial to skin health, including vitamins C and E, zinc, copper, and amino acids. Aloe vera can help improve skin tone, texture and elasticity while reducing fine lines and wrinkles, making it a popular ingredient in anti-aging products. In addition, aloe vera is also used in hair care products to nourish and moisturize hair, improve hair texture and prevent breakage.

Advantage:

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.
2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.
3. After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

FAQ:

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

1. Please let me know which products you require and how many of each you need.

2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
