

Nicotinamide riboside chloride CAS 23111-00-4 essential coenzyme

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Firsky
- Model Number: FS-CAS 23111-00-4
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

Product Specification

- Shelf Life: 2 Years
- Product Name: Nicotinamide Riboside Chloride
- CAS NO: 23111-00-4
- Purity: 99%

Product Description

Product Description

Product Name:	Nicotinamide riboside chloride
Synonyms:	Nicotinamide riboside chloride;Nicotinamide B-D Riboside Chloride(WX900111);Nicotinamide Riboside.Cl;Nicotinamide riboside chloride;Pyridinium, 3-(aminocarbonyl)-1-β-D-ribofuranosyl-, chloride (1:1);3-carbamoyl-1-((2R,3R,4S,5R)-3,4-dihydroxy-5-(hydroxymethyl)tetrahydrofuran-2-yl)pyridin-1-ium chloride;3-Carbamoyl-1-(β-D-ribofuranosyl)pyridinium chloride;3-Carbamoyl-1-beta-D-ribofuranosylpyridinium chloride
CAS:	23111-00-4
MF:	C11H15ClN2O5
MW:	290.7
EINECS:	200-184-4
storage temp.	under inert gas (nitrogen or Argon) at 2-8°C
solubility	Soluble to 100 mM in DMSO and to 100 mM in water
form	solid
color	White

Description

Introducing our premium-grade product: Nicotinamide Riboside Chloride (CAS 23111-00-4). Derived from the potent compound nicotinamide riboside, this exceptional supplement offers a range of health benefits with the added advantage of being optimized for Google SEO.

Our Nicotinamide Riboside Chloride is meticulously formulated to support your cellular energy production and promote overall well-being. By increasing the levels of Nicotinamide Adenine Dinucleotide (NAD⁺) in your body, this supplement aids in vital metabolic processes.

As an SEO-friendly description, we want to highlight the key features and benefits that users searching for this product may be interested in. Incorporating relevant keywords is an essential aspect of optimizing content for search engines like Google. By including "Nicotinamide Riboside Chloride" and "CAS 23111-00-4" in the product description, we improve the chances of attracting organic traffic from individuals seeking information about these specific terms.

Investing in our Nicotinamide Riboside Chloride ensures a top-quality product that can potentially provide remarkable advantages. Boost your energy metabolism, support anti-aging effects, and promote neuroprotection with our meticulously crafted formula. Additionally, this supplement may play a role in enhancing metabolic health, assisting in glucose regulation, insulin sensitivity, and maintaining healthy lipid profiles.

While the benefits of Nicotinamide Riboside Chloride are promising, it is essential to consult a healthcare professional before incorporating any new supplement into your routine. Our product is designed with uncompromising quality and adherence to the highest industry standards, ensuring your satisfaction and peace of mind.

Discover the power of Nicotinamide Riboside Chloride (CAS 23111-00-4) and unlock a healthier, more energetic you. Trust our SEO-optimized product to deliver the desired results and help you achieve your wellness goals.

Application

Nicotinamide riboside chloride, with CAS number 23111-00-4, is a form of nicotinamide riboside (NR), which is a type of vitamin B3. NR is a precursor to nicotinamide adenine dinucleotide (NAD⁺), which is an essential coenzyme involved in various metabolic processes in the body.

The usage of nicotinamide riboside chloride, like other forms of NR, is primarily related to its potential benefits in cellular energy production and overall health. It is believed to enhance NAD⁺ levels in the body, which can have several implications. Some potential uses and benefits associated with nicotinamide riboside chloride include: Energy metabolism: NR supplementation may support mitochondrial function, which is responsible for cellular energy production. By increasing NAD⁺ levels, nicotinamide riboside chloride may help enhance energy metabolism.

Anti-aging effects: NAD⁺ plays a crucial role in DNA repair and maintaining cellular health. Increasing NAD⁺ levels through NR supplementation has been suggested to potentially have anti-aging effects, although further research is needed to fully understand its mechanisms and efficacy.

Neuroprotection: Some studies have suggested that increasing NAD⁺ levels through NR supplementation may have neuroprotective effects. It may help support brain health and potentially offer benefits in conditions like Alzheimer's disease and Parkinson's disease. However, more research is needed in this area.

Metabolic health: Nicotinamide riboside chloride has been investigated for its potential benefits in metabolic health. It may help regulate glucose metabolism, improve insulin sensitivity, and support healthy lipid profiles. However, more research is required to establish its effectiveness in these areas.

It's important to note that while nicotinamide riboside chloride shows promise in various areas, research is still ongoing, and its full therapeutic potential and long-term effects are not yet fully understood. If you are considering using nicotinamide riboside chloride or any other supplement, it is advisable to consult with a healthcare professional who can provide guidance based on your specific health needs and circumstances.

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.

2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.

3. After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
