

Healthcare Product Natural Lamb Sheep Placenta Extract Capsules

Our Product Introduction

for more products please visit us on firskytech.com

Basic Information

- Place of Origin: China
- Brand Name: Firsky
- Model Number: FS-Sheep Placenta
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

Product Specification

- Product Name: Sheep Placenta
- CAS NO: Sheep Placenta
- Purity: 99%
- Shelf Life: 2 Years

Product Description

Description:

Sheep placenta is a complex biological matrix that plays an important role in many biological processes. As a natural source of many growth factors and other nutrients, it is used in a variety of applications for its regenerative, restorative and anti-inflammatory properties.

Sheep placenta is a source of several growth factors, including epidermal growth factor (EGF), fibroblast growth factor (FGF), insulin-like growth factor (IGF), platelet-derived growth factor (PDGF), and transforming growth factor beta (TGF). - β). These growth factors regulate cell proliferation, differentiation, and angiogenesis, making sheep placenta an excellent choice for wound healing, tissue regeneration, and cosmetic applications.

Sheep placenta also contains a variety of nutrients such as amino acids, peptides, vitamins, trace elements and other bioactive compounds that are essential for maintaining health and promoting tissue growth and repair. Sheep placenta's high protein content supports cell proliferation and tissue growth, while its anti-inflammatory properties help reduce inflammation and promote wound healing.

An important application of sheep placenta is in cosmetics, especially in creams, lotions and masks. It is a key ingredient in many anti-aging products because of its ability to improve skin tone, texture and elasticity. Sheep placenta also acts as a sunscreen, protecting the skin from UV rays. Additionally, it has been shown to have wound-healing properties, making it a beneficial ingredient for accelerating healing of cuts and bruises.

Application:

Sheep placenta is derived from sheep placental tissue and has been used in a variety of traditional and alternative medicine practices. However, it is worth noting that the application of sheep placenta is not supported by extensive scientific evidence, and its effectiveness and safety have not been thoroughly confirmed. Here are some common applications for sheep placenta:

1. Skin care and cosmetics: Sheep placenta is sometimes used in skin care and cosmetics because it is believed to improve skin health and appearance. It is said to have moisturizing, anti-aging and skin rejuvenating properties. Some products may contain sheep placenta extract or placental protein, which is believed to promote collagen production and enhance skin elasticity.
2. General health and well-being: In some traditional medicine practices, sheep placenta is believed to have general health benefits. It is said to support immune function, increase vitality and improve overall health. However, scientific evidence to support these claims is limited.
3. Anti-aging and rejuvenating: Sheep placenta is often marketed as an anti-aging supplement or treatment. It is said to help reduce signs of aging such as wrinkles, fine lines and age spots. Proponents believe that sheep placenta can support tissue repair and regeneration, resulting in a more youthful appearance.
4. Fertility and reproductive health: In some traditional medicine systems, sheep placenta is considered to have a positive impact on fertility and reproductive health. It is said to support hormonal balance, improve reproductive function, and enhance fertility in both men and women. However, scientific evidence to support these claims is lacking.

Advantage:

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.
2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.
3. After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

FAQ:

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
