

Pro-xylane cas 439685-79-7 exceptional anti-aging, moisturizing, and skin-firming properties

Our Product Introduction

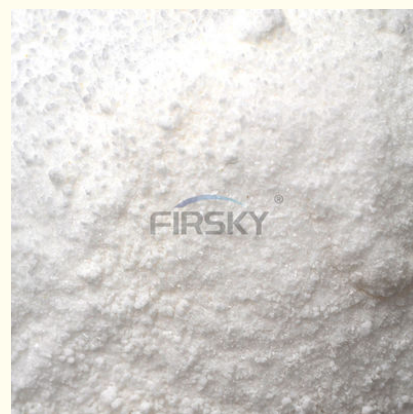

Basic Information

- Place of Origin: China
- Brand Name: Firsky
- Model Number: FS-CAS 439685-79-7
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

Product Specification

- Shelf Life: 2 Years
- Product Name: Pro-xylane
- CAS NO: 439685-79-7
- Purity: 99%

Product Description

Product Description

Product Name:	Pro-xylane
Synonyms:	(2S,3R,4S,5R)-2-(2-hydroxypropyl)oxane-3,4,5-triol; Nano liposomal hydroxypropyl tetrahydropyrantriol;Retinol Pro+Pro-xylane;Pro-Xylane, Puri-Xylane;HYDROXYPROPYL TETRAHYDROPYRANTRIOL;Puri-Xylane; Nano Liposomal HYDROXYPROPYL TETRAHYDROPYRANTRIOL;Tetrahydropyrantriol
CAS:	439685-79-7
MF:	C8H16O5
MW:	192.21
EINECS:	456-880-5
Boiling point	376.0±42.0 °C(Predicted)
density	1.368±0.06 g/cm3(Predicted)
vapor pressure	0Pa at 25
storage temp.	Store at -20°C
color	White powder

Description

Introducing our innovative Pro-Xylane (CAS 439685-79-7), a cutting-edge ingredient designed to elevate your skincare routine to new heights. With its exceptional anti-aging, moisturizing, and skin-firming properties, Pro-Xylane stands as a testament to our commitment to delivering effective and transformative skincare solutions. Pro-Xylane is a highly coveted ingredient in the cosmetics industry, known for its remarkable anti-aging benefits. By stimulating the production of glycosaminoglycans (GAGs), such as hyaluronic acid, Pro-Xylane enhances skin hydration, firmness, and elasticity. The result is a visible reduction in the appearance of wrinkles, fine lines, and sagging skin, unveiling a more youthful and revitalized complexion.

Experience the power of Pro-Xylane as it plumps and moisturizes your skin from within. Its unique ability to penetrate the skin's layers promotes water retention, enhancing skin plumpness and improving overall hydration. Pro-Xylane reinforces the skin's natural barrier, preventing moisture loss and leaving your skin supple, smooth, and intensely moisturized.

Pro-Xylane's remarkable skin-firming and tightening properties are key to achieving a more lifted and toned appearance. By promoting collagen synthesis and GAG production, it improves skin elasticity and firmness, reducing the visible signs of sagging and enhancing the overall texture and tone of your skin.

Incorporating Pro-Xylane into your skincare routine is effortless. Our carefully formulated serums, creams, and lotions seamlessly integrate this powerful ingredient, ensuring its efficacy and long-lasting results.

Application

Pro-Xylane (CAS 439685-79-7) is a unique and patented ingredient widely used in the skincare and cosmetic industry. Here are some common usages of Pro-Xylane:

Anti-Aging Formulations: Pro-Xylane is renowned for its exceptional anti-aging properties. It stimulates the production of glycosaminoglycans (GAGs) in the skin, such as hyaluronic acid, which helps improve skin hydration, firmness, and elasticity. By promoting collagen synthesis, Pro-Xylane can reduce the appearance of wrinkles, fine lines, and sagging skin, resulting in a more youthful and rejuvenated complexion.

Skin Plumping and Moisturization: Pro-Xylane has the ability to penetrate the skin's layers and promote water retention, leading to improved skin plumpness and hydration. It helps reinforce the skin's natural barrier function, preventing moisture loss and creating a more supple and moisturized appearance.

Skin Firming and Tightening: Pro-Xylane's ability to stimulate collagen production and promote the synthesis of GAGs contributes to skin firmness and elasticity. It helps improve the overall tone and texture of the skin, reducing the appearance of sagging and promoting a more lifted and toned appearance.

Wrinkle Reduction: Pro-Xylane can effectively target the appearance of wrinkles and fine lines. By improving skin hydration, firmness, and elasticity, it helps diminish the depth and visibility of wrinkles, resulting in smoother and more youthful-looking skin.

Skincare Serums and Creams: Pro-Xylane is commonly incorporated into serums, creams, lotions, and other skincare formulations. Its stability and compatibility with various ingredients allow for easy integration into different product formats, ensuring its efficacy and longevity.

When using Pro-Xylane in skincare formulations, it is important to follow recommended usage guidelines and consult with industry experts and relevant scientific literature for precise recommendations based on your specific formulation and desired results. Additionally, it is beneficial to incorporate Pro-Xylane into a comprehensive skincare routine that includes sun protection measures, such as sunscreen, to maximize its anti-aging benefits and protect the skin from further damage.

Please note that specific concentration recommendations and regulatory guidelines may vary depending on your industry and application. For precise guidance tailored to your specific requirements, we recommend consulting industry experts and referring to relevant scientific literature. Experience the transformative effects of Pro-Xylane and unlock a more youthful and radiant complexion.

Advantage

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a

reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.

2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.

3. After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
