

## CAS 106-69-4 1,2,6-Hexanetriol Light Yellow Viscous Liquid

Our Product Introduction

for more products please visit us on [firskytech.com](http://firskytech.com)

### Basic Information

- Place of Origin: China
- Brand Name: Firsky
- Model Number: FS-106-69-4
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

### Product Specification

- Product Name: 1,2,6-Hexanetriol
- CAS NO: 106-69-4
- Purity: 99%
- Shelf Life: 2 Years
- Highlight: 1,2,6-Hexanetriol Viscous Liquid, CAS 106-69-4 Raw Cosmetic Ingredients

**Product Description****CAS 106-69-4 1,2,6-Hexanetriol Light Yellow Viscous Liquid****Specifications:**

Product Name:	1,2,6-Hexanetriol
Synonyms:	hexane-1,2,6-triol; TRIHYDROXYHEXANE(1,2,6-); Hexane-1,2,6-triol; HEXANETRIOL(1,2,6-); HT; 1,2,6-TRIHYDROXYHEXANE; 1,2,6-HEXANETRIOL; 1,2,6-TRIHYDROXYHEXANE 95+%
CAS:	<b>106-69-4</b>
MF:	C <sub>6</sub> H <sub>14</sub> O <sub>3</sub>
MW:	134.17
EINECS:	203-424-6
Melting point	25-32 °C
Boiling point	178 °C/5 mmHg (lit.)
density	1.109 g/mL at 25 °C (lit.)
storage temp.	Store below +30°C.
form	Viscous Liquid
color	light yellow

**Description:**

We are a leading supplier of high-quality chemical raw materials, specializing in the distribution of 1,2,6-hexanetriol. Our company is committed to providing reliable, pure 1,2,6-hexanetriol, a versatile compound that can be used in various industries. With its unique properties and wide range of uses, 1,2,6-hexanetriol (CAS 106-69-4) is a valuable chemical in the pharmaceutical, cosmetic and industrial sectors.

1,2,6-Hexanetriol is a colorless viscous liquid that is easily soluble in water and a variety of organic solvents. The following are the main properties and applications of 1,2,6-hexanetriol:

**Pharmaceutical applications:** 1,2,6-Hexanetriol is widely used in the pharmaceutical industry as an intermediate for the synthesis of various pharmaceutical compounds. It is a basic material for the production of antibiotics, antiviral drugs and other medicinal substances. The versatility of 1,2,6-hexanetriol makes it valuable in the development of innovative drugs.

**Cosmetics and personal care products:** 1,2,6-Hexanetriol is used in the cosmetics and personal care products industry. It is used as a humectant and humectant in skin care products, hair care formulations and cosmetic preparations. 1,2,6-Hexanetriol helps retain moisture, improves skin hydration, and enhances the overall look and feel of cosmetics.

**Industrial Applications:** 1,2,6-Hexanetriol is used in various industrial processes. It is used as a chemical intermediate in the production of polymers, resins and plasticizers. 1,2,6-Hexanetriol's chemical reactivity and compatibility with other compounds make it valuable in industrial applications such as coatings, adhesives and sealants.

**Solvents and Chemical Reagents:** 1,2,6-Hexanetriol serves as a solvent and chemical reagent in laboratory settings and research settings. It is used to dissolve and suspend various compounds, facilitate chemical reactions, and perform analytical procedures. The unique properties of 1,2,6-hexanetriol make it a versatile tool in scientific research and experiments.

**Specialty Chemicals:** 1,2,6-Hexanetriol is used in the production of specialty chemicals. It is a starting material for the synthesis of compounds used in the manufacture of flavors, fragrances, and other specialty products. 1,2,6-Hexanetriol helps develop innovative and high-quality specialty chemicals.

**Application:**

CAS number 81-23-2 corresponds to the compound dehydrocholic acid. Dehydrocholic acid is a bile acid derivative that has a variety of applications in medicine and research. Here are some of its main applications:

- 1. Cholagogue:** Dehydrocholic acid acts as a cholagogue, which means it promotes bile secretion and flow in the liver. It can help improve bile production and enhance gallbladder emptying. Cholagogues, such as dehydrocholic acid, are sometimes used to support liver and gallbladder function or reduce symptoms associated with impaired bile flow.
- 2. Pharmaceutical preparations:** Dehydrocholic acid can be used as an excipient or ingredient in some pharmaceutical preparations. It can be used to enhance the solubility, stability or absorption of other active pharmaceutical ingredients.
- 3. Research and Experimental Applications:** Dehydrocholic acid is widely used in research settings to study its effects on biological systems, particularly related to bile acid metabolism, liver function, and digestive processes. It is commonly used as a tool to study the role of bile acids in various physiological and pathological processes.
- 4. In vitro diagnostic tests:** Dehydrocholic acid can be used in certain in vitro diagnostic tests and assays. It can be used as a reagent or as part of a calibration standard for the measurement of specific analytes in clinical or research laboratories.

**Advantage:**

- 1. Firsky (Wuhan)** continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.

2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.

3. After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

## **FAQ:**

### **How do I make a purchase?**

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often.

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

### **Which delivery alternatives are available?**

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

### **How are your products verified?**

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

### **Does a discount apply to large orders?**

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

### **What forms of payment do you accept?**

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

### **Do you deliver to parcel lockers at PO boxes?**

YES, we could deliver to parcel lockers at PO boxes!

### **Can I get a tracking number from you?**

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
