Hot Sale 99% purity Pyrroloquinoline quinone disodium salt PQQ powder red powder CAS 122628-50-6

Basic Information

. Place of Origin: China . Brand Name: Firsky

FS-122628-50-6 Model Number:

 Minimum Order Quantity: 1KG

• Price: CN¥213.68 - CN¥356.13

Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in

different specifications. Packaging can be customized according to customer

requirements. Aluminium foil bag and carton.

Delivery Time: 7-15days

Payment Terms: T/T, Western Union, MoneyGram

Supply Ability: 20000T

Product Specification

Description

"Discover the exceptional quality of our PQQ Powder, a premium chemical raw material that lies at the core of our product portfolio. With a CAS number of 122628-50-6, our PQQ Powder is meticulously sourced and manufactured to meet the highest industry standards.

PQQ, short for Pyrroloquinoline Quinone, is a powerful coenzyme with remarkable properties that make it a sought-after ingredient in the chemical industry. As a potent antioxidant, it plays a vital role in cellular energy metabolism, promoting overall health and vitality.

Our PQQ Powder is derived from the finest raw materials, ensuring its purity and effectiveness. It is extensively utilized in the production of pharmaceuticals, dietary supplements, and various industrial applications.

With its exceptional stability and solubility, our PQQ Powder seamlessly integrates into different chemical processes, enhancing their efficacy and final product quality. Its versatility makes it an indispensable ingredient for manufacturers in the chemical industry.

At our company, we prioritize quality control and adhere to stringent manufacturing practices. Our PQQ Powder undergoes rigorous testing at every stage of production to guarantee consistency, purity, and safety.

With its unique chemical composition and advantageous properties, PQQ Powder is an invaluable asset to numerous industries. Its applications span across pharmaceuticals, nutraceuticals, and other industrial sectors. Choose our premium PQQ Powder to elevate your formulations and gain a competitive edge in the market. Contact us today to discuss your specific requirements and explore the endless possibilities with our top-grade chemical raw materials."

Application

PQQ powder, with CAS number 122628-50-6, has a wide range of applications in various industries. Here are some common usages:

- 1. Pharmaceuticals: PQQ powder is utilized in the pharmaceutical industry due to its potential health benefits. It is known for its antioxidant properties and its role in supporting mitochondrial function. PQQ powder is incorporated into various formulations targeting cognitive health, cardiovascular health, and overall well-being.
- 2. Nutraceuticals: PQQ powder is a popular ingredient in the production of nutraceuticals and dietary supplements. It is believed to support cellular energy production, promote brain health, and provide antioxidant protection. PQQ powder is often included in formulations targeting energy enhancement, anti-aging, and overall vitality.
- 3. Cosmetics and Skincare: The antioxidant and anti-aging properties of PQQ powder make it a valuable ingredient in cosmetic and skincare products. It is believed to help protect the skin against oxidative stress, promote collagen synthesis, and improve skin elasticity. PQQ powder is often utilized in anti-aging creams, serums, and other skincare formulations.
- 4. Sports Nutrition: PQQ powder is gaining popularity in the sports nutrition industry due to its potential benefits for energy metabolism and exercise performance. It is believed to support mitochondrial function and enhance endurance. PQQ powder is incorporated into pre-workout supplements, energy drinks, and formulations targeting athletic performance.
- 5. Research and Development: PQQ powder is widely used as a research tool in laboratories and academic institutions. Its unique properties make it suitable for various scientific studies, including antioxidant research, mitochondrial function studies, and neuroprotection research.

Please note that the usages mentioned above are general applications of PQQ powder. The specific applications may vary depending on the industry, product formulation, and regulatory considerations. It is important to consult with experts and comply with relevant guidelines when incorporating PQQ powder into your products.

Advantage

- 1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.
- 2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.
- 3. After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

- 1. Please let me know which products you require and how many of each you need.
- 2. We will provide you with the best pricing right away, including delivery charges.
- 3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
- 4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
- 5. Two days after the package is sent out, a tracking number and packing photo will be provided.
- 6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
