

High Purity Good Price CAS 84380-01-8 alpha-Arbutin White Powder In Stock

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Firsky
- Model Number: FS-CAS 84380-01-8
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

Product Specification

- Product Name: Alpha-Arbutin
- CAS NO: 84380-01-8
- Purity: 99%
- Shelf Life: 2 Years

Product Description

Specifications

Product Name:	alpha-Arbutin
Synonyms:	Alpha Arbutin Powder;4-hydroquinone-alpha-d-glucopyranoside;alpha-arbutin;a-Arbutin;Hydroquinone O- α -D-Glucopyranoside;4-Hydroxyphenyl a-D-glucopyranoside;(2R,3S,4S,5R,6S)-2-(HYDROXYMETHYL)-6-(4-HYDROXYPHENOXY)TETRAHYDROPYRAN-3,4,5-TRIOL;4-hydroxyphenyl alpha-D-glucopyranoside
CAS:	84380-01-8
MF:	C ₁₂ H ₁₆ O ₇
MW:	272.25
EINECS:	209-795-0
Melting point	195-196°C
Boiling point	561.6 \pm 50.0 °C(Predicted)
density	1.556 \pm 0.06 g/cm ³ (Predicted)
storage temp.	2-8°C
solubility	DMSO (Slightly), Methanol (Slightly)
pka	10.10 \pm 0.15(Predicted)
color	White to Off-White powder

Description

Our company specializes in providing top-quality chemical raw materials, including the compound alpha-Arbutin, which has the CAS number 84380-01-8. Alpha-Arbutin is a naturally derived ingredient that is highly sought after in the cosmetic industry for its remarkable skincare benefits.

As a potent skin-lightening agent, alpha-Arbutin is widely used in skincare products targeting hyperpigmentation, dark spots, and uneven skin tone. It works by inhibiting the activity of tyrosinase, the enzyme responsible for melanin production, thereby helping to achieve a brighter and more even complexion.

At our company, we take pride in sourcing alpha-Arbutin from reputable suppliers, ensuring its purity and efficacy. Our rigorous quality control procedures guarantee that our customers receive a consistently reliable and high-performance product.

If you are interested in learning more about alpha-Arbutin or any other chemical raw materials we offer, please don't hesitate to contact us. We prioritize customer satisfaction and are committed to building long-lasting partnerships based on trust and product excellence.

Application

CAS 84380-01-8 corresponds to the chemical compound alpha-Arbutin. Alpha-Arbutin is a naturally occurring compound found in certain plants, including bearberry plants. It is widely used in the cosmetic industry for its skincare benefits, specifically in skincare products targeting hyperpigmentation and skin brightening.

Alpha-Arbutin is known for its ability to inhibit tyrosinase, an enzyme involved in melanin production. By inhibiting tyrosinase, it can help reduce the formation of melanin in the skin, leading to a more even skin tone and lightening of dark spots, freckles, and other areas of hyperpigmentation.

Moreover, alpha-Arbutin is considered a safer alternative to other skin-lightening ingredients, as it has shown low cytotoxicity and is less likely to cause irritation or sensitization.

Advantage

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.
2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.
3. After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

1. Please let me know which products you require and how many of each you need.

2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
