Product Description

Description

Our company excels in supplying a wide range of chemical raw materials and is dedicated to meeting the diverse needs of our customers. We take pride in offering CAS 91717-85-0, 1,2,10-DECANETRIOL, as one of our featured products.

1,2,10-DECANETRIOL is a valuable chemical compound with potential applications in various industries. In the pharmaceutical and chemical sectors, 1,2,10-DECANETRIOL can be utilized as a vital intermediate or starting material in the synthesis of pharmaceutical compounds and specialty chemicals. Its unique structure and reactivity make it suitable for the production of specific drugs, pharmaceutical intermediates, or chemical building blocks, supporting advancements in pharmaceutical research and development.

Furthermore, 1,2,10-DECANETRIOL holds promise in the formulation of personal care and cosmetic products. Its potential moisturizing and emollient properties can contribute to skincare and haircare formulations.

Additionally, 1,2,10-DECANETRIOL may find applications in research laboratories for various scientific investigations. Its versatile structure presents opportunities for the development of novel compounds, reactions, or processes in fields such as organic chemistry, materials science, or biochemistry.

We prioritize the highest standards of quality control and strictly adhere to safety regulations to ensure the quality and safety of our products. Our extensive range of chemical raw materials, including CAS 91717-85-0, 1,2,10-DECANETRIOL, caters to a wide range of industry requirements.

For more information or specific product inquiries, please feel free to contact us. Our dedicated team is ready to provide exceptional service and assist you in finding the optimal solutions for your chemical raw material needs.

Application

CAS 91717-85-0, 1,2,10-DECANETRIOL, is a chemical compound that has several potential applications. However, it is important to note that specific applications may vary depending on factors such as industry requirements and scientific research. Here are some possible applications for 1,2,10-DECANETRIOL:

1. **Pharmaceutical and Chemical Intermediates:** 1,2,10-DECANETRIOL may serve as a valuable intermediate or starting material in the synthesis of various pharmaceutical compounds and specialty chemicals. Its unique structure and reactivity make it suitable for use in the production of specific drugs, pharmaceutical intermediates, or chemical building blocks.
2. **Personal Care and Cosmetic Products:** 1,2,10-DECANETRIOL may find applications in personal care and cosmetic products. Due to its potential moisturizing and emollient properties, it could be used as an ingredient in skincare or haircare formulations.
3. **Research and Development:** 1,2,10-DECANETRIOL might be used in research and development laboratories for various scientific investigations. Its versatile structure can offer opportunities for the development of novel compounds, reactions, or processes in fields such as organic chemistry, materials science, or biochemistry.

Advantage

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.
2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw

materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
