

cas 302-79-4 Retinoic acid all trans-Retinoic acid EINECS 206-129-0 factory supply best quality

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Firsky
- Model Number: FS-CAS 302-79-4
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

Product Specification

- Product Name: Apple, Malus Sylvestris, ext
- Shelf Life: 2 Years
- CAS NO: Retinoic Acid
- Purity: 99%

Product Description

Product Description

Product Name:	Retinoic acid
Synonyms:	TRETINOIN;TRETINOIN VITAMIN A ACID;TRANS-RETINOIC ACID;TRANS VITAMIN A ACID;VITAMIN A ACID;VITAMIN A ACID, ALL-TRANS;all-trans-Retinoic acid,97%;2,4,6,8-Nonatetraenoic acid
CAS:	302-79-4
MF:	C ₂₀ H ₂₈ O ₂
MW:	300.44
EINECS:	206-129-0
Melting point	180-181 °C (lit.)
Boiling point	381.66°C (rough estimate)
density	1.0597 (rough estimate)
refractive index	1.4800 (estimate)
storage temp.	-20°C
solubility	Practically insoluble in water, soluble in methylene chloride, slightly soluble in ethanol (96 per cent).
pka	4.73±0.33(Predicted)
form	powder
color	yellow

Description

The CAS number 302-79-4 corresponds to retinoic acid in the Chemical Abstracts Service registry. Retinoic acid, also known as tretinoin, is a derivative of vitamin A that is widely used in skincare products and pharmaceuticals for its various effects on the skin.

Application

Here is a description of retinoic acid and its properties:

Skin Renewal: Retinoic acid is known for its ability to promote skin cell turnover and renewal. It works by binding to specific receptors in the skin cells, which regulates gene expression and stimulates the production of new cells. This process can help improve the texture and tone of the skin, reduce the appearance of fine lines and wrinkles, and promote a more youthful appearance.

Collagen Production: Retinoic acid has been shown to stimulate the synthesis of collagen, a protein that provides structural support to the skin. Increased collagen production can help improve skin elasticity, firmness, and reduce the signs of aging.

Acne Treatment: Retinoic acid is commonly used as a treatment for acne. It helps unclog pores, reduce inflammation, and regulate oil production, which can lead to fewer breakouts. It also assists in fading acne scars and hyperpigmentation.

Hyperpigmentation and Uneven Skin Tone: Retinoic acid can help improve the appearance of hyperpigmentation, melasma, and other forms of uneven skin tone. It inhibits the production of melanin, the pigment responsible for skin coloration, and promotes a more even distribution of melanin in the skin.

Prescription-based Use: Retinoic acid is often available as a prescription medication due to its potent effects. Higher strengths of retinoic acid require a doctor's prescription and should be used under medical supervision.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw

materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
