# cas 68990-74-9 Dandelion extract EINECS 273-624-6 Taraxacum officinale extract factory supply

Our Product Introduction

## Basic Information

- Place of Origin: China
- Brand Name: Firsky
- Model Number: FS-CAS 68990-74-9
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

## Product Specification

- Product Name: Dandelion Extract
- Shelf Life: 2 Years
- CAS NO: 68990-74-9
- Purity: 99%

## Product Description

| | |
|---|---|
| Product Name | Dandelion Extract |
| Grade | Food Grade |
| Sample | Free Sample |
| Test method: | HPLC |
| Shelf Life | 24 Months |
| Storage | Stored in Cool and Dry Place, Keep from Strong Sunlight |

# Description

The CAS number 68990-74-9 does not correspond to a specific compound or ingredient. CAS numbers are unique identifiers assigned to chemical substances, and each CAS number corresponds to a specific compound or substance. However, based on the given CAS number, it is not possible to provide a description of dandelion extract or any other specific substance.
Dandelion extract is derived from the common dandelion plant (Taraxacum officinale) and is known for its various potential health benefits. It is typically obtained from the roots, leaves, or flowers of the dandelion plant through extraction methods such as steam distillation or solvent extraction.
Dandelion extract is rich in bioactive compounds, including flavonoids, phenolic acids, sesquiterpene lactones, and polysaccharides. These compounds are believed to contribute to the potential health-promoting properties of dandelion extract.

# Application

Some potential benefits associated with dandelion extract include:
Liver Health: Dandelion extract has been traditionally used to support liver health. It may help promote liver detoxification, stimulate bile production, and support overall liver function.
Digestive Health: Dandelion extract has been used as a digestive tonic, known for its potential to improve digestion, stimulate appetite, and relieve digestive discomfort.
Diuretic Properties: Dandelion extract has diuretic properties and may help increase urine production, which can be beneficial for reducing water retention and supporting kidney function.
Antioxidant Activity: Dandelion extract contains antioxidants that can help neutralize harmful free radicals in the body, thereby potentially reducing oxidative stress and supporting overall cellular health.
Potential Anti-Inflammatory Effects: Some studies suggest that dandelion extract may possess anti-inflammatory properties, which could have implications for reducing inflammation in the body.

# FAQ

**How do I make a purchase?**

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often
1. Please let me know which products you require and how many of each you need.

2. We will provide you with the best pricing right away, including delivery charges.

3. If the price seems reasonable to you, you can select a payment option to complete the transaction.

4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

**Which delivery alternatives are available?**
All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

**How are your products verified?**
We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

**Does a discount apply to large orders?**
After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

**What forms of payment do you accept?**
We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in

for more products please visit us on firskytech.com

addition to all other forms of cryptocurrency.

**Do you deliver to parcel lockers at PO boxes?**
YES, we could deliver to parcel lockers at PO boxes!

**Can I get a tracking number from you?**
We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
