Product Description

Genistein CAS 446-72-0 maca extract powder

Description

Genistein is a naturally occurring isoflavone compound found in legumes such as soybeans. It is well-known for its potent antioxidant properties.

Genistein is used in cosmetic formulations due to its potential anti-aging properties. As an antioxidant, it protects the skin from UV radiation, environmental stressors, and free radicals. Furthermore, it demonstrates activity, which may explain how it helps to increase skin suppleness and reduce wrinkles and fine lines.

Furthermore, genistein has been studied for its capacity to inhibit tyrosinase activity, which means it can aid with hyperpigmentation and skin tone balance.

Application

Anti-Aging Skincare: Genistein is widely used in anti-aging skincare products such as serums and creams to promote skin renewal, reduce the look of aging, and improve overall skin condition.

Skin Brightening Formulations: The component is found in cosmetics that are designed to balance and brighten skin tones, providing the illusion of younger, more radiant skin.

Sunscreens and after-sun care products include genistein, which provides antioxidant protection and aids in the skin's recovery after sun exposure.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often.

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
