

2-(3-(4-hydroxyphenyl)propanamido)benzoic acid cas 697235-49-7 white powder raw material

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Firsky
- Model Number: FS-CAS 697235-49-7
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

Product Specification

- Shelf Life: 2 Years
- Product Name: 2-(3-(4-hydroxyphenyl)propanamido)benzoic Acid
- CAS NO: 697235-49-7
- Purity: 99%

Product Description

Product Description

CAS No.
697235-49-7
Chemical Name:
2-(3-(4-hydroxyphenyl)propanamido)benzoic acid
Synonyms
HYDROXYPHENYL PROPAMIDOBENZOIC ACID;Dihydrogen alkaloid;NanoCalmin; NanoCalmin 5%;Dihydroavenatine;Avena sativa alkaloi;Dihydrooat alkaloids; Dihydroavenanthramide;Dihydroavenanthramide D;Property: off-white powder
CBNumber:
CB73070520
Molecular Formula:
C16H15NO4
Molecular Weight:
285.29
MDL Number:
MFCD26131465

Description

2-(3-(4-hydroxyphenyl)propanamido)benzoic acid is a chemical compound with a complex structure. It consists of a benzoic acid core with an amide group attached to the benzene ring, and a 3-(4-hydroxyphenyl)propanamide group connected to the carboxylic acid group.

This compound may have applications in various fields, including pharmaceuticals, research, and chemical synthesis. However, without specific information about its known properties or applications, it is challenging to provide a detailed description of its use.

Application

Dihydroavenatine is a naturally occurring compound found in oats (*Avena sativa*). It belongs to the class of avenanthramides, which are bioactive polyphenols present in oat bran and other oat products.

Dihydroavenatine, along with other avenanthramides, has several potential applications and benefits:

Skin Health: Avenanthramides, including dihydroavenatine, have been studied for their beneficial effects on skin health. They possess anti-inflammatory and antioxidant properties that can help soothe and protect the skin.

Oat-based skincare products containing dihydroavenatine may be used to alleviate skin conditions such as dryness, itching, and inflammation.

Antioxidant Activity: Dihydroavenatine is known for its antioxidant properties. Antioxidants help neutralize harmful free radicals in the body, which can protect against oxidative stress and damage. Consuming oats or oat-based products containing dihydroavenatine may contribute to overall antioxidant support.

Cardiovascular Health: Some studies suggest that avenanthramides, including dihydroavenatine, may have cardiovascular benefits. They may help improve blood flow, reduce inflammation in blood vessels, and potentially contribute to the prevention of cardiovascular diseases such as atherosclerosis.

Anti-inflammatory Effects: Dihydroavenatine exhibits anti-inflammatory properties, which can be beneficial in mitigating inflammation-related conditions. It may help reduce inflammation in the body, which is associated with various chronic diseases.

It is worth noting that further scientific research is ongoing to better understand the specific mechanisms and potential applications of dihydroavenatine. As with any compound or ingredient, it is important to consult product labels, scientific literature, and healthcare professionals for accurate information and guidance regarding its specific applications and usage.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw

materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
