

99% High Purity Good Price Ectoine white powder CAS 96702-03-

3

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Firsky
- Model Number: FS-96702-03-3
- Minimum Order Quantity: 1KG
- Price: \$50.00 - \$100.00
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 20000T

Description

Welcome to our company, a leading provider of premium chemical raw materials. We are delighted to introduce our flagship product, Deoxycholic acid sodium salt (CAS 302-95-4), which caters to your chemical needs with utmost quality and reliability.

Deoxycholic acid sodium salt is a versatile chemical compound that has gained significant recognition in various industries. With its exceptional purity and performance, our Deoxycholic acid sodium salt stands out as a trusted solution for your chemical requirements.

Key Features:

1. **High Purity:** Our Deoxycholic acid sodium salt is meticulously synthesized using advanced techniques, ensuring a high level of purity that meets or exceeds industry standards.
2. **Versatility:** Deoxycholic acid sodium salt finds applications in diverse chemical processes, making it an indispensable ingredient in numerous industrial sectors.
3. **Stability:** Our product is formulated to exhibit exceptional stability, allowing for long shelf life and consistent performance in various environments.
4. **Quality Control:** We maintain stringent quality control measures throughout the manufacturing process, ensuring that our Deoxycholic acid sodium salt consistently meets the required specifications and purity standards.
5. **Expertise:** With years of experience and a team of skilled professionals, our company is committed to delivering chemical raw materials that surpass customer expectations.

Applications:

Deoxycholic acid sodium salt (CAS 302-95-4) has a wide range of applications in the chemical industry, including but not limited to:

- **Pharmaceutical Formulations:** Our product serves as a vital ingredient in the formulation of pharmaceutical compounds, contributing to the development of innovative drugs and therapeutic agents.
- **Cosmetic and Personal Care:** Deoxycholic acid sodium salt is utilized in the formulation of cosmetic and personal care products, particularly in skincare and haircare applications.
- **Research and Development:** Our product finds extensive use in research and development laboratories, supporting scientific investigations and explorations in various fields.
- **Specialty Chemicals:** Deoxycholic acid sodium salt is employed in the production of specialty chemicals, catering to specific industrial requirements and applications.

For detailed technical specifications, pricing, and any further inquiries regarding Deoxycholic acid sodium salt (CAS 302-95-4), please do not hesitate to contact us. Our dedicated team is ready to assist you and provide tailored solutions to meet your unique chemical needs.

Application

Ectoine (CAS 96702-03-3) has various applications across different industries. Here are some common uses:

1. **Cosmetics and Skincare:** Ectoine is widely used in cosmetic and skincare formulations due to its beneficial properties for the skin. It has moisture-retaining abilities and can help protect the skin against environmental stressors, such as UV radiation and pollutants. Ectoine is often incorporated into products targeting skin hydration, anti-aging, and protection.
2. **Pharmaceuticals:** Ectoine has potential applications in the pharmaceutical industry. It is being studied for its role in drug stabilization, particularly in formulations susceptible to degradation or denaturation. Ectoine's ability to protect cells from stress and maintain cellular integrity makes it a subject of interest in various therapeutic areas.
3. **Biotechnology:** Ectoine finds applications in biotechnological processes. It is utilized in cell culture, protein stabilization, and cryopreservation. Ectoine can help protect cells and biomolecules from osmotic stress, maintaining their functionality during bioprocessing and biopharmaceutical production.
4. **Personal Care Products:** Ectoine's properties make it suitable for use in a range of personal care products beyond cosmetics. It can be found in products like shampoos, conditioners, and body lotions, where it helps to improve moisture retention and protect the hair and skin from external stressors.
5. **Agricultural Industry:** Ectoine has shown potential for use in agriculture. It may have applications in crop protection, as it has been studied for its ability to enhance plant tolerance to environmental stress, such as drought and high salinity.

Please note that the specific usage and concentration of Ectoine (CAS 96702-03-3) may vary depending on the intended application, individual requirements, and industry regulations. It is recommended to consult with industry experts or refer to relevant literature for accurate usage instructions and guidelines.

Please remember that the information provided here is for informational purposes only and should not be considered as medical or professional advice.

Advantage

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.
2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.
3. After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
