

High Purity Glucosylglycerol Glyceryl Glucoside for Skin Moisturizing CAS 22160-26-5

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Firsky
- Model Number: FS-22160-26-5
- Minimum Order Quantity: 1KG
- Price: CN¥354.86 - CN¥709.72
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 20000T

Description

"Introducing our premium-grade glucosylglycerol, a highly sought-after chemical compound used as a key ingredient in various industries. With the CAS number 22160-26-5, our glucosylglycerol sets new standards for purity, efficacy, and reliability.

Our glucosylglycerol is meticulously produced using state-of-the-art technology and adheres to the highest quality standards. It is sourced from trusted suppliers, ensuring consistent and exceptional performance in your applications.

The unique properties of our glucosylglycerol make it an ideal choice for a wide range of applications in the chemical industry. It serves as a crucial building block for the synthesis of advanced materials, pharmaceuticals, and personal care products. Its versatility and compatibility with various formulations make it an invaluable asset for researchers and manufacturers alike.

By choosing our glucosylglycerol, you can benefit from its exceptional stability, solubility, and bioavailability. Its remarkable properties enable enhanced product performance, improved shelf life, and increased efficacy. It is a reliable solution that can elevate the quality and competitiveness of your end products.

At our company, we prioritize customer satisfaction and believe in building long-term partnerships. We strive to provide exceptional products and unparalleled customer service. With our extensive experience and expertise in the chemical industry, we ensure a seamless purchasing process and prompt delivery of your glucosylglycerol requirements.

Experience the difference of our top-notch glucosylglycerol CAS 22160-26-5. Contact us today to discuss your specific needs and discover how our product can elevate your formulations to new heights of success."

Please note that it's important to customize the description to fit your specific product and company details.

Application

Glucosylglycerol (CAS 22160-26-5) is a versatile chemical compound with various applications across different industries. Here are some of the common uses of glucosylglycerol:

1. **Cosmetics and Personal Care:** Glucosylglycerol is widely used in the formulation of skincare and personal care products. It acts as a moisturizer and humectant, helping to improve the skin's hydration and elasticity. Its ability to retain water makes it an ideal ingredient for lotions, creams, serums, and other cosmetic products.
2. **Pharmaceuticals:** Glucosylglycerol has potential applications in the pharmaceutical industry. It can be used as an excipient or an active ingredient in drug formulations. Its unique properties make it suitable for enhancing drug stability, solubility, and bioavailability, leading to improved drug delivery and efficacy.
3. **Biotechnology:** Glucosylglycerol is used in various biotechnological processes. It can serve as a cryoprotectant, helping to protect cells and tissues during freezing and thawing procedures. This makes it valuable in fields such as cryobiology, cell culture, and biobanking.
4. **Food and Beverage:** Glucosylglycerol can be utilized in the food and beverage industry as a functional ingredient. It acts as a stabilizer, emulsifier, and texture enhancer in various food products. Additionally, its moisturizing properties make it useful in the formulation of beverages and dairy products.
5. **Chemical Synthesis:** Glucosylglycerol serves as a building block in organic synthesis. It can be used as a precursor for the synthesis of complex molecules, including pharmaceutical intermediates, specialty chemicals, and bioactive compounds.

It is important to note that the specific usage and application of glucosylglycerol may vary depending on the requirements and regulations of each industry and country. It is always recommended to consult with experts and refer to relevant guidelines and safety data sheets when incorporating glucosylglycerol into your products.

Advantage

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.
2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.
3. After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
