

## weight loss supplement **Garcinia Cambogia Extract CAS 90045-23-1**

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: FIRSKY
- Model Number: 90045-23-1
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

#### Product Specification

- Product Name: Garcinia Cambogia Extract
- CAS NO: 90045-23-1
- Highlight: **Garcinia Cambogia Extract 90045-23-1 ,  
Weight Loss Garcinia Cambogia Extract**

## Product Description

Garcinia cambogia extract CAS 90045-23-1

### Description

Garcinia cambogia extract is derived from the fruit of the Garcinia cambogia tree, a small tropical fruit native to Southeast Asia. The extract is obtained from the rind of the fruit and is rich in a compound called hydroxycitric acid (HCA). Garcinia cambogia extract has gained popularity as a weight loss supplement, but its effectiveness and safety are subjects of ongoing debate and scientific research.

### Application

1. Weight Loss Aid: Garcinia cambogia extract is primarily marketed as a weight loss supplement. It is believed that HCA, the active component in the extract, may inhibit an enzyme called citrate lyase, which is involved in the conversion of carbohydrates into fat. It is also claimed that HCA may suppress appetite and reduce food cravings. However, the scientific evidence supporting these claims is limited, and the results of studies have been mixed. 2. Fat Blocker: Some proponents suggest that Garcinia cambogia extract may act as a fat blocker, preventing the storage of excess fat in the body. It is believed that HCA inhibits the action of an enzyme called ATP citrate lyase, which is involved in fatty acid synthesis. However, further research is needed to fully understand the effects of Garcinia cambogia extract on fat metabolism. 3. Blood Sugar Regulation: It has been suggested that Garcinia cambogia extract may help regulate blood sugar levels by enhancing glucose uptake in cells. However, the evidence supporting this claim is limited, and more research is needed to establish its effectiveness. 4. Cholesterol Reduction: Some studies have indicated that Garcinia cambogia extract may have a modest effect on reducing total cholesterol and LDL (bad) cholesterol levels. However, the clinical significance of these effects is unclear, and further research is needed to determine its efficacy and safety for cholesterol management. It's important to note that the effectiveness and safety of Garcinia cambogia extract as a weight loss supplement are still subjects of debate and ongoing scientific investigation. Additionally, the quality and purity of Garcinia cambogia products can vary, so it's crucial to choose reliable sources and consult with a healthcare professional before starting any new supplement regimen. If considering the use of Garcinia cambogia extract or products containing it, it is advisable to consult with a healthcare professional or registered dietitian for guidance. They can provide personalized advice based on your specific circumstances and help you make informed decisions about your weight management goals.

### Advantage

1. Firsky (Wuhan) keeps working to provide customers with high-quality products steadily. We have established a sound internal quality management system and are constantly striving to improve quality, reduce deviation and waste.  
2. If you have any questions, please feel free to ask questions, we will reply to your questions within 48 hours.  
3. If you have any questions after receiving the goods, please feel free to contact us. If the loss is caused by us, we guarantee 100% compensation.
