NADH, disodium salt cas 606-68-8 factory supply high quality cost effective

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Firsky
- Model Number: FS-CAS 606-68-8
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

Product Specification

- Shelf Life: 2 Years
- Product Name: NADH, Disodium Salt
- CAS NO: 606-68-8
- Purity: 99%

Product Description

Product Description

Product Name:	NADH, disodium salt
Synonyms:	eta-d-ribofuranosyl-3-pyridinecarboxamide,disodiumsalt;BETA-NICOTINAMIDE ADENINE DINUCLEOTIDE, REDUCED FORM DISODIUM SALT;BETA-NICOTINAMIDE-ADENINE DINUCLEOTIDE, REDUCED, 2NA;BETA-NICOTINAMIDE ADENINE DINUCLEOTIDE REDUCED DISODIUM SALT;BETA-NICOTINAMIDE ADENINE DINUCLEOTIDE, DISODIUM SALT;beta-Nicotinamide adenine dinucleotidedisodium salthydrate;eta-d-ribofuranosyl-3-pyridinecarboxamide, disodium salt beta-nicotinamide adenine dinucleotide, disodium salt, hydrate beta-nicotinamide adenine dinucleotide disodium salt,trihydrate;NICOTINAMIDE ADENINE DINUCLEOTIDE (REDUCED) DISODIUM SALT extrapure
CAS:	606-68-8
MF:	C21H30N7NaO14P2
MW:	689.44
EINECS:	210-123-3
Melting point	140-142°C
density	1.955 at 20
vapor pressure	0.73Pa at 20-50
storage temp.	Inert atmosphere,Store in freezer, under -20°C
solubility	H2O: 50 mg/mL, clear to nearly clear, yellow
form	Powder
color	White

Description

Introducing our premium-grade compound, NADH disodium salt (CAS 606-68-8), which stands as a remarkable player in the realm of cellular biochemistry. NADH, also known as nicotinamide adenine dinucleotide, is a vital coenzyme that plays a pivotal role in cellular energy metabolism and oxidative processes. With its exceptional stability and bioavailability, our NADH disodium salt offers unparalleled support for various physiological functions.

Our NADH disodium salt (CAS 606-68-8) is meticulously synthesized and rigorously tested to ensure the highest quality and purity standards. It serves as a valuable tool in enzymatic reactions, cellular respiration, and the production of ATP, the energy currency of the cell. Researchers and scientists in diverse fields, including biochemistry, pharmacology, and biotechnology, rely on our NADH disodium salt for their cutting-edge studies and innovative applications.

By choosing our NADH disodium salt (CAS 606-68-8), you unlock a world of possibilities for enhancing energy metabolism, promoting cellular health, and advancing your research endeavors. Trust in our commitment to delivering superior products that meet and exceed your expectations. Experience the power of NADH-disodium salt for yourself and embark on a journey of scientific discovery and innovation.

Application

The usage of NADH disodium salt (CAS 606-68-8) spans across various fields and applications. Here are some common uses:

Energy Metabolism: NADH disodium salt plays a crucial role in cellular energy production. It serves as a coenzyme in important metabolic reactions, such as the citric acid cycle and oxidative phosphorylation, contributing to the efficient conversion of nutrients into energy.

Cellular Health and Anti-Aging: NADH is known for its potential benefits in promoting cellular health and combating the effects of aging. It acts as a potent antioxidant, helping to reduce oxidative stress and protect cells from damage caused by free radicals.

Sports Performance and Endurance: NADH supplementation has been explored for its potential to enhance athletic performance and endurance. It is believed to support energy production and improve oxygen utilization, thereby aiding in physical performance and reducing fatigue.

Neurological Health: NADH is involved in various processes that support brain function and neurological health. It is being investigated for its potential therapeutic applications in conditions such as Alzheimer's disease, Parkinson's disease, and chronic fatigue syndrome.

Research and Biochemical Studies: NADH disodium salt is widely used in research laboratories and biochemical studies. It serves as a valuable tool for investigating cellular metabolism, enzyme kinetics, and redox reactions.

It's important to note that specific usage and dosage recommendations may vary depending on the intended application. It is always advisable to consult scientific literature, professionals, or experts in the field for precise guidance on the usage of NADH disodium salt (CAS 606-68-8) for your particular needs.

Advantage

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.
2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.
3. After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

FAQ

How do I make a purchase?
We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often
1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?
All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?
We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?
After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?
We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?
YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?
We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
