Description

Welcome to our company, a leading provider of high-quality chemical raw materials. We specialize in supplying top-notch products, including Ascorbyl Glucoside with the CAS number 129499-78-1. Ascorbyl Glucoside is a derivative of Vitamin C and Glucose, known for its remarkable properties in skincare and cosmetic applications.

Our Ascorbyl Glucoside, with CAS number 129499-78-1, is carefully produced to ensure exceptional quality and effectiveness. It is a stable, water-soluble powder that is easily incorporated into various formulations. With its precise CAS number, 129499-78-1, you can trust in its authenticity and traceability.

Ascorbyl Glucoside is widely recognized for its excellent antioxidant and skin-brightening effects. It has the ability to inhibit melanin production, helping to reduce the appearance of dark spots and uneven skin tone. In addition, Ascorbyl Glucoside is known for its role in collagen synthesis, promoting skin firmness and elasticity.

Due to its outstanding benefits, Ascorbyl Glucoside is commonly used in skincare and cosmetic products. It is incorporated into serums, creams, lotions, and masks, targeting various skin concerns such as aging, hyperpigmentation, and dullness. Ascorbyl Glucoside's stability and compatibility make it a valuable ingredient in formulations.

Our company prioritizes quality and customer satisfaction. Our Ascorbyl Glucoside undergoes rigorous testing to meet the highest industry standards. We source our raw materials from reputable suppliers, ensuring consistent quality and purity.

Choose our Ascorbyl Glucoside with CAS number 129499-78-1 to enhance your skincare and cosmetic formulations. Experience the remarkable effects of this powerful ingredient and provide your customers with high-quality products they can trust.

For more information about our Ascorbyl Glucoside and other chemical raw materials, please contact us. We look forward to serving you and meeting your specific requirements.

Application

Ascorbyl Glucoside, with the CAS number 129499-78-1, has various applications in the skincare and cosmetic industry. Here are some common uses of Ascorbyl Glucoside:

1. **Skin Brightening and Lightening:** Ascorbyl Glucoside is known for its skin brightening and lightening properties. It inhibits the production of melanin, the pigment responsible for dark spots and uneven skin tone. As a result, it is commonly used in skincare products targeting hyperpigmentation and age spots.
2. **Antioxidant Protection:** Ascorbyl Glucoside possesses potent antioxidant properties. It helps protect the skin from free radicals, which can cause premature aging and damage. By neutralizing free radicals, Ascorbyl Glucoside contributes to the overall health and vitality of the skin.
3. **Collagen Synthesis:** Ascorbyl Glucoside plays a vital role in collagen synthesis. Collagen is a protein responsible for maintaining the skin's firmness and elasticity. By promoting collagen production, Ascorbyl Glucoside can help improve skin firmness and reduce the appearance of fine lines and wrinkles.
4. **Stability and Compatibility:** Ascorbyl Glucoside is prized for its stability and compatibility in cosmetic formulations. It remains active and effective even in the presence of air and light. This makes it a desirable ingredient in skincare products that require a longer shelf life and consistent performance.
5. **Formulation Flexibility:** Ascorbyl Glucoside is water-soluble and compatible with a wide range of cosmetic formulations. It can be easily incorporated into serums, creams, lotions, masks, and other skincare products. Its versatility allows formulators to create innovative and effective skincare solutions.

It's important to note that the specific usage and recommended concentration of Ascorbyl Glucoside may vary depending on the desired effects and formulation requirements. It is advisable to consult relevant guidelines, regulations, and experts in the skincare and cosmetic industry to ensure the proper and safe usage of Ascorbyl Glucoside CAS 129499-78-1.

Advantage

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.
2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.
3. After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
