## Product Description

Acai Berry Extract CAS 879496-95-4

### Description

Acai Berry Extract is derived from the fruit of *Euterpe oleracea*, a small purple berry native to the Amazon rainforest. This extract is rich in antioxidants, including anthocyanins and flavonoids. In cosmetic formulations, Acai Berry Extract is highly valued for its powerful antioxidant properties. It acts as a free radical scavenger, protecting the skin from oxidative stress and environmental damage. This extract helps maintain a more youthful appearance by reducing the appearance of fine lines, wrinkles, and other signs of premature aging. Additionally, Acai Berry Extract is believed to have anti-inflammatory effects, making it beneficial for calming irritated skin and reducing redness. Its natural polyphenols contribute to skin brightening and promoting a more even complexion.

### Application

**Anti-Aging Skincare:** Acai Berry Extract is commonly used in anti-aging skincare products, such as serums, creams, and lotions, to combat oxidative stress and promote skin rejuvenation. **Skin-Brightening Formulations:** The extract is included in products designed to brighten and even out skin tone, resulting in a more radiant and youthful complexion. **Natural Skincare:** Acai Berry Extract is a sought-after ingredient in natural and organic skincare formulations that prioritize the use of plant-based and eco-friendly materials.
