

Cas 7896-97-1 Black bean extract factory supply hot selling high purity good feedback

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Firsky
- Model Number: FS-CAS 7896-97-1
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

Product Specification

- Product Name: Black Bean Extract
- Shelf Life: 2 Years
- CAS NO: 7896-97-1
- Purity: 99%

Product Description

Crude extracts of flavonoids from black soybean hulls have different inhibitory effects on Escherichia coli, Staphylococcus aureus and Bacillus subtilis

Description

Black bean extract can refer to an extract derived from black beans, which may be used in various applications, including dietary supplements, functional foods, or cosmetic products. The specific properties and potential health benefits of black bean extract can vary depending on the extraction method and the specific compounds present in the extract.

Application

Here are some common applications of black bean extract:

Food and Beverage Industry: Black bean extract can be used as a natural food coloring or flavoring agent in the food and beverage industry. It can be added to products such as sauces, dressings, bakery goods, beverages (including energy drinks and smoothies), ice creams, and confectionery items.

Nutraceuticals and Dietary Supplements: Black bean extract is often used in the formulation of nutraceuticals and dietary supplements. It can be incorporated into capsules, tablets, powders, or liquid extracts to provide concentrated levels of bioactive compounds found in black beans. These supplements may be marketed for their potential health benefits, such as antioxidant support, cardiovascular health, and weight management.

Functional Foods: Black bean extract can be used in the production of functional foods, which are products that offer additional health benefits beyond basic nutrition. It can be added to food products such as cereals, granola bars, protein bars, and snack foods to enhance their nutritional profile and provide potential health benefits.

Cosmetics and Skincare Products: Black bean extract is sometimes used in cosmetics and skincare products. It may be included in formulations such as creams, lotions, serums, and masks due to its potential antioxidant properties and skin-soothing effects. Black bean extract may help protect the skin from oxidative damage, improve skin tone, and provide hydration.

Animal Feed: Black bean extract can be used as an ingredient in animal feed formulations. It may be included to enhance the nutritional value of the feed and provide additional bioactive compounds for animals.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post),

and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
