

cas 84082-34-8 Bilberry Extract factory supply hot selling high purity with best price

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Firsky
- Model Number: FS-CAS Bilberry Extract
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

Product Specification

- Product Name: Bilberry Extract
- Shelf Life: 2 Years
- CAS NO: 84082-34-8
- Purity: 99%

Product Description

Product Description

Product Name:	Blueberry extract
Synonyms:	Bilberry, extracts;Powdered Bilberry Extract;Powdered Bilberry Extract (500 mg);Cris 8716;Einecs 281-983-5;Extract of bilberry;Extract of whortleberry;Myrtocyan
CAS:	84082-34-8
MF:	C27H31O16
MW:	611.53
EINECS:	281-983-5
Appearance	purple powder
Uses	In jams and jellies; food flavoring. Extracts as astringent and capillary protectant in eyecare and skin products.

Description

Bilberry extract is derived from the fruit of the bilberry plant (*Vaccinium myrtillus*), a small shrub native to Europe and North America. The extract is known for its rich content of bioactive compounds, particularly anthocyanins, which contribute to its potential health benefits.

Application

Here is a description of some key features and characteristics of bilberry extract:

Antioxidant properties: Bilberry extract is highly regarded for its potent antioxidant activity. It contains a variety of antioxidants, including anthocyanins, flavonols, and phenolic acids. These antioxidants help protect cells from oxidative stress caused by free radicals, which are associated with aging and various chronic diseases.

Eye health support: Bilberry extract has been traditionally used to support eye health. The anthocyanins present in bilberry extract are believed to enhance microcirculation and strengthen the blood vessels in the eyes, potentially improving vision and reducing the risk of eye-related conditions such as age-related macular degeneration (AMD) and cataracts.

Anti-inflammatory effects: Bilberry extract possesses anti-inflammatory properties, which may help reduce inflammation in the body. Chronic inflammation is associated with various health conditions, including cardiovascular disease, diabetes, and certain types of cancer. The anti-inflammatory properties of bilberry extract may contribute to overall health and well-being.

Circulatory support: The bioactive compounds in bilberry extract can promote healthy blood circulation. By improving blood flow and preventing the aggregation of platelets, bilberry extract may help maintain cardiovascular health and reduce the risk of conditions such as heart disease and stroke.

Potential cognitive benefits: Some studies suggest that bilberry extract may have cognitive-enhancing effects. The antioxidants and other bioactive compounds in bilberry extract may help protect brain cells from oxidative stress and promote healthy brain function, potentially reducing the risk of age-related cognitive decline and supporting memory and learning.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are

available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
