

## Kojic Acid Skin Whitening Ingredients CAS 501-30-4 Raw Cosmetic

Our Product Introduction

for more products please visit us on [firskytech.com](http://firskytech.com)

### Basic Information

- Place of Origin: China
- Brand Name: FIRSKY
- Model Number: 501-30-4
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

### Product Specification

- Product Name: Kojic Acid
- CAS NO: 501-30-4
- Molecular Formula: C<sub>6</sub>H<sub>6</sub>O<sub>4</sub>
- Molecular Weight: 142.11
- Highlight: **Kojic Acid Skin Whitening Ingredients, Skin Whitening Ingredients CAS 501-30**

## Product Description

Kojic acid CAS 501-30-4 raw cosmetic ingredients

Product Name:	Kojic acid
Synonyms:	2-(hydroxymethyl)-5-hydroxy-4H-pyran-4-one;5-hydroxy-2-(hydroxymethyl)pyran-4-one;UNII-6K23F1TT52;5-Hydroxy-2-(hydroxymethyl)-4-pyrone;5-Hydroxy-2-hydroxymethyl-4H-4-pyranone;2-Hydroxymethyl-5-hydroxy-γ-pyrone;MFCD00006580;5-Hydroxy-2-(hydroxymethyl)-4H-pyran-4-one;4H-PYRAN-4-ONE,5-HYDROXY-2-(HYDROXYMETHYL);5-hydroxy-2-(hydroxymethyl)-4H-pyran-4-one;3-hydroxy-6-hydroxymethyl-4H-pyran-4-one;EINECS 207-922-4
CAS NO:	501-30-4
EINECS:	207-922-4
Molecular Formula:	C <sub>6</sub> H <sub>6</sub> O <sub>4</sub>
Molecular Weight:	142.11
Melting Point:	152-155 °C (lit.)
Boiling Point:	179.65°C (rough estimate)
Density:	1.1712 (rough estimate)
Appearance:	white to beige powder
Storage:	Store in airtight packaging to avoid high temperature and high humidity.
Stability:	Used and stored as specified, will not decompose, avoid contact with oxides

## Description

### Kojic Acid, CAS 501-30-4: Your Skin's Boosting Luminance Friend

Discover the world of Kojic Acid, CAS 501-30-4, a fascinating substance renowned for improving complexion and lightening skin.

**Skin Brightener:** Kojic Acid is well known for its capacity to make skin appear lighter and more radiant. It functions by preventing the synthesis of melanin, the pigment that gives skin its color.

**Hyperpigmentation Fighter:** Age spots, melasma, and post-inflammatory hyperpigmentation are just a few of the hyperpigmentation conditions that can be treated with this substance.

**Reduction of Acne Scars:** Research on Kojic Acid has indicated potential in lessening the visibility of acne scars and imperfections, resulting in a more refined complexion.

**Antioxidant shield:** Because of its antioxidant qualities, it helps shield the skin from the damaging effects of UV rays and other environmental contaminants.

**Cosmetic Innovation:** To encourage a fair skin tone and a young appearance, kojic acid is a main component of numerous skincare products, such as lotions, serums, and soaps.

**Scientific Research:** Kojic acid's potential in the cosmetics industry is being further explored by researchers as they look at its uses in dermatology and skincare.

**Boost Your Skincare Routine:** Knowing Kojic Acid's Potential and Significance (CAS 501-30-4) highlights this substance's vital role in dermatology, cosmetology, and the quest for healthy, glowing skin.

Whether you're a dermatologist prescribing solutions for your patients, a skincare enthusiast looking to address pigmentation concerns, or someone who's just fascinated by the molecules that enhance beauty, this exploration of Kojic Acid's potential offers profound insights into its critical role in advancing skincare science and promoting a luminous complexion.

This is the starting point for your exploration into the relevance of this substance, from its contributions to skincare innovation to its effects on melanin inhibition. Explore its applications to learn more about its essential role in the beauty and self-care industries. Accept the potential of a molecule that gives you the confidence to present your finest self.

## Application

Kojic acid is a naturally occurring substance generated from fungi and has the CAS number 501-30-4. Its antioxidant and skin-lightening qualities are its main claims to fame. These are some of its primary applications:

**Skin lightening:** Due to its capacity to prevent the synthesis of melanin, the pigment that gives skin its color, kojic acid is frequently used in skincare products. To lessen the appearance of dark spots, hyperpigmentation, and uneven skin tone, kojic acid can suppress the activity of tyrosinase, an enzyme involved in the formation of melanin. It is frequently included in soaps, lotions, serums, and creams that are meant to lighten and brighten the skin.

Kojic acid's antioxidant qualities make it advantageous for anti-aging skincare products that promote skin renewal and anti-aging. Free radicals can hasten the aging process and cause wrinkles and fine lines to appear. It aids in neutralizing them. In anti-aging formulas, kojic acid is occasionally used to encourage skin renewal and enhance the skin's overall appearance. It is noteworthy that kojic acid has the potential to elicit skin irritation or sensitivity, especially in those with sensitive skin. It is advised to do patch tests and adhere to usage guidelines when utilizing skincare products that include kojic acid.

Moreover, it's critical to follow the directions on kojic acid products and refrain from using them excessively or for an extended period of time as this could upset the skin's normal balance of melanin production.

It is best to speak with a dermatologist or other skincare specialist if you're thinking about taking kojic acid for skincare. They can offer you tailored advice and help you decide which course of action is safest for your particular skin troubles.

## Advantage

1.Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.

2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.

3.After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

## FAQ

**How do I make a purchase?**

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

**Which delivery alternatives are available?**

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

**How are your products verified?**

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

**Does a discount apply to large orders?**

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

**What forms of payment do you accept?**

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

**Do you deliver to parcel lockers at PO boxes?**

YES, we could deliver to parcel lockers at PO boxes!

**Can I get a tracking number from you?**

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
