

99% Purity Manufacturer Supply Tranexamic Acid Cosmetic Grade CAS 1197-18-8

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Firsky
- Model Number: FS-1197-18-8
- Minimum Order Quantity: 1KG
- Price: CN¥213.53 - CN¥355.87
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 20000T

Product Specification

- Highlight: 99% Purity Tranexamic Acid, Cosmetic Grade Tranexamic Acid, Tranexamic Acid CAS 1197-18-8

Product Description

99% Purity Manufacturer Supply Tranexamic Acid Cosmetic Grade CAS 1197-18-8

Description

At Firsky, we specialize in providing high-quality chemical compounds for various industrial applications. Our Tranexamic Acid, with CAS number 1197-18-8, is a key ingredient that meets the stringent standards of the industry.

Tranexamic Acid is a versatile compound with a wide range of applications. It is widely recognized for its exceptional properties and efficacy in various industries, making it an essential component in the formulation of different products.

Key Features:

1. **Hemostatic Properties:** Tranexamic Acid is renowned for its hemostatic properties, making it valuable in medical and pharmaceutical applications. It helps control bleeding and reduces the risk of excessive blood loss in surgeries, dental procedures, and traumatic injuries.
2. **Skin Brightening:** This compound is also used in the cosmetic and skincare industry for its skin brightening effects. It helps reduce the appearance of dark spots, hyperpigmentation, and uneven skin tone, resulting in a more radiant and even complexion.
3. **Anti-Inflammatory Benefits:** Tranexamic Acid exhibits anti-inflammatory properties, making it beneficial in skincare formulations targeting redness, irritation, and inflammation. It helps soothe the skin and alleviate various skin conditions, promoting a calmer and healthier complexion.
4. **Melasma Treatment:** Melasma is a common skin condition characterized by dark patches on the face. Tranexamic Acid has been found to be effective in the treatment of melasma by inhibiting the production of melanin, the pigment responsible for these patches.
5. **Formulation Compatibility:** Tranexamic Acid is compatible with various cosmetic and skincare formulations, including serums, creams, lotions, and masks. It can be incorporated into both water-based and oil-based products, providing flexibility in product development.

At Firsky, we prioritize quality and consistency in all our offerings. Our Tranexamic Acid is manufactured using advanced processes and undergoes rigorous quality control measures to ensure its purity and effectiveness.

For more information about our Tranexamic Acid (CAS 1197-18-8) and to discuss how it can enhance your specific product formulations, please contact our knowledgeable team. We are committed to providing you with the finest chemical raw materials for your business needs.

Application

Tranexamic Acid (CAS 1197-18-8) has various applications in the medical, pharmaceutical, and cosmetic industries. Here are some common usages of this chemical compound:

1. **Hemostatic Agent:** Tranexamic Acid is widely used as a hemostatic agent in medical and surgical procedures. It helps control bleeding by preventing the breakdown of blood clots, making it valuable in surgeries, dental procedures, and traumatic injuries.
2. **Treatment of Heavy Menstrual Bleeding:** Tranexamic Acid is prescribed to manage heavy menstrual bleeding. It works by reducing the breakdown of blood clots in the uterus, thus decreasing the amount of blood flow during menstruation.
3. **Melasma and Hyperpigmentation Treatment:** Tranexamic Acid is increasingly used in skincare and cosmetic formulations for its ability to treat melasma and hyperpigmentation. It helps inhibit the production of melanin, reducing the appearance of dark spots and evening out skin tone.
4. **Post-Inflammatory Hyperpigmentation (PIH):** Tranexamic Acid is also employed in skincare products targeting post-inflammatory hyperpigmentation (PIH) caused by acne, skin injuries, or inflammation. It helps fade PIH by regulating melanin production and promoting a more even complexion.
5. **Skincare Formulations:** Tranexamic Acid is incorporated into various skincare formulations, including serums, creams, lotions, and masks. It can provide skin-brightening, anti-inflammatory, and anti-aging benefits, depending on the specific formulation.

When using Tranexamic Acid, it is crucial to follow the recommended guidelines and concentrations provided by healthcare professionals or cosmetic formulators. They can provide specific instructions tailored to the desired use and the individual's needs.

Please note that the information provided here is for general reference only, and it is always recommended to consult healthcare professionals or formulators for accurate usage instructions based on the specific application or condition.

Advantage

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and

eliminate waste.

2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.
3. After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
