

cas 59870-68-7 Glabridin Bio-0904 factory supply high purity with best price hot selling

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Firsky
- Model Number: FS-CAS 59870-68-7
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

Product Specification

- Product Name: Glabridin
- Shelf Life: 2 Years
- CAS NO: 59870-68-7
- Purity: 99%

Product Description

Product Description

Product Name:	Glabridin
CAS:	59870-68-7
MF:	C ₂₀ H ₂₀ O ₄
MW:	324.37
EINECS:	611-908-7
Melting point	154-155
Boiling point	518.6±50.0 °C(Predicted)
density	1.257±0.06 g/cm ³ (Predicted)
Fp	267
storage temp.	room temp
solubility	DMSO: soluble 5mg/mL, clear (warmed)
Uses	Glabridin is a compound extracted from Licorice (root) shows properties that are cytotoxic, antimicrobial, estrogenic and anti-proliferative.

Description

The CAS number 59870-68-7 corresponds to the unique identifier for glabridin in the Chemical Abstracts Service registry. Glabridin is a natural compound found in the root extract of *Glycyrrhiza glabra*, commonly known as licorice. It is known for its various biological activities and is often used in the cosmetic and skincare industry.

Application

Glabridin has several notable properties and benefits:

Skin Lightening: Glabridin is known for its potential skin-lightening effects. It inhibits the enzyme tyrosinase, which is involved in the production of melanin, the pigment responsible for skin color. By inhibiting tyrosinase, glabridin can help reduce the production of melanin, leading to a more even skin tone and potentially lightening hyperpigmentation or dark spots.

Anti-inflammatory: Glabridin exhibits anti-inflammatory properties, which can help soothe and calm the skin. It has been shown to inhibit the production of inflammatory mediators and reduce redness and irritation.

Antioxidant: Glabridin possesses antioxidant activity, helping to neutralize free radicals and protect the skin from oxidative damage caused by environmental factors such as UV radiation and pollution. This antioxidant activity can contribute to the overall health and appearance of the skin.

Anti-Aging: Glabridin may have anti-aging effects by promoting collagen synthesis and inhibiting the breakdown of collagen fibers in the skin. Collagen is a protein that provides structure and elasticity to the skin, and its depletion is associated with the formation of wrinkles and sagging.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often.

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
