

## Resveratrol CAS 501-36-0 natural compound Antioxidant and Anti-Aging

### Basic Information

- Place of Origin: China
- Brand Name: Firsky
- Model Number: FS-CAS 501-36-0
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

### Product Specification

- Shelf Life: 2 Years
- Product Name: Resveratrol
- CAS NO: 501-36-0
- Purity: 99%

## Product Description

### Product Description

|                     |  |
|---------------------|--|
| Product Name:       | Resveratrol  |
| Synonym:            | trans-Resveratrol; SRT501; SRT-501; SRT 501; RM1812; RM-1812; RM 1812; CA1201; CA-1201; CA 1201; Resvida; Vineatrol 20M.                                       |
| CAS NO:             | 501-36-0   |
| Molecular Formula:  | C <sub>14</sub> H <sub>12</sub> O <sub>3</sub>   |
| Molecular Weight:   | 228.24   |
| Melting point:      | 253-255°C  |
| Boiling point:      | 449.1±14.0 °C(Predicted)   |
| Density:            | 1.359±0.06 g/cm <sup>3</sup> (Predicted)   |
| Purity:             | >98%   |
| Appearance:         | Off-white powder   |
| Storage Condition:  | Dry, dark and at 0 - 4 C for short term (days to weeks) or -20 C for long term (months to years).  |
| Solubility:         | soluble in DMSO, not soluble in water.   |
| Shipping Condition: | Shipped under ambient temperature as non-hazardous chemical. This product is stable enough for a few weeks during ordinary shipping and time spent in Customs. |

### Description

Discover the exceptional benefits of our premium-grade compound, Resveratrol (CAS 501-36-0). Resveratrol, a natural polyphenol found in certain plants, has garnered widespread attention for its potential health-promoting properties. With its impressive range of applications, our Resveratrol product stands at the forefront of wellness support.

As a potent antioxidant, Resveratrol (CAS 501-36-0) helps combat oxidative stress and protects cells from damaging free radicals. Its anti-aging effects have made it a sought-after compound for individuals seeking to promote youthful vitality and overall well-being.

Resveratrol's positive impact on cardiovascular health is noteworthy. It supports healthy blood pressure levels, promotes optimal blood flow, and contributes to the well-being of blood vessels. Moreover, this versatile compound showcases anti-inflammatory properties that aid in managing inflammation and supporting a balanced immune system.

In the realm of metabolic health, Resveratrol has shown promise in regulating blood sugar levels, improving insulin sensitivity, and supporting healthy weight management. Its potential benefits extend to neurological health as well, with studies exploring its protective effects on brain cells and its role in enhancing cognitive function.

Resveratrol (CAS 501-36-0) has also piqued interest in cancer research due to its potential anticancer properties. It has been studied for its ability to inhibit the growth of cancer cells, induce apoptosis, and disrupt cancer cell signaling pathways.

### Application

Resveratrol (CAS 501-36-0) is a natural compound that has gained significant attention for its potential health benefits. Here are some common usages of resveratrol:

**Antioxidant and Anti-Aging:** Resveratrol is known for its antioxidant properties, which help protect cells from oxidative stress caused by free radicals. It is believed to contribute to anti-aging effects and promote overall cellular health.

**Cardiovascular Health:** Resveratrol has been extensively studied for its potential benefits in supporting cardiovascular health. It may help maintain healthy blood pressure levels, promote optimal blood flow, and support the health of blood vessels.

**Anti-Inflammatory Effects:** Resveratrol exhibits anti-inflammatory properties that can help reduce inflammation in the body. It has been studied for its potential in managing inflammatory conditions and supporting overall immune function.

**Metabolic Health:** Resveratrol has been investigated for its potential role in supporting metabolic health. It may help regulate blood sugar levels, improve insulin sensitivity, and support healthy weight management.

**Neurological Health:** Resveratrol shows promise in supporting neurological health and cognitive function. It has been studied for its potential in protecting brain cells, reducing the risk of neurodegenerative diseases, and enhancing memory and learning abilities.

**Cancer Research:** Resveratrol has attracted attention in cancer research due to its potential anticancer properties. It has been studied for its ability to inhibit the growth of cancer cells, induce apoptosis (cell death), and interfere with cancer cell signaling pathways.

It's important to note that specific usage recommendations, dosages, and potential benefits may vary depending on the individual and the desired health goals. Before starting any supplementation or treatment, it is advisable to consult with healthcare professionals or experts in the field for personalized guidance and recommendations.

### Advantage

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.
2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.

3. After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

## FAQ

### How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

### Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

### How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

### Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

### What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

### Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

### Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
