It is natural, easy to find, and it has a proven track record of effectively assisting with weight loss.
Appearance:	yellow powder
Usages	Suppress appetite, prevent protein and carbohydrates from turning into fat, and slow down the formation of fatty acids and cholesterol

Description:

We are a leading supplier of premium chemical raw materials, specializing in the distribution of Garcinia Cambogia Extract. Our company is dedicated to providing reliable, pure Garcinia Cambogia extract, a natural compound popular for its potential health benefits. Garcinia Cambogia Extract (CAS 90045-23-1) is a valuable ingredient in the dietary supplement, nutraceutical and cosmetic industries due to its unique properties and diverse applications.

Garcinia Cambogia Extract is derived from the fruit of the Garcinia Cambogia tree, native to Southeast Asia. It contains a key active ingredient called hydroxycitric acid (HCA), which is known for its potential effects on weight management and appetite control. The following are the main properties and applications of Garcinia Cambogia Extract:

Weight Management: Garcinia cambogia extract is popular as a natural ingredient for weight management. The active compound HCA is believed to inhibit an enzyme called citrate lyase, which plays a role in converting excess carbohydrates into fat. By inhibiting this enzyme, Garcinia Cambogia extract may help support healthy weight management and prevent fat accumulation.

Appetite Control: Another potential benefit of Garcinia Cambogia extract is its ability to help control appetite. HCA is thought to increase serotonin levels in the brain, which creates a feeling of fullness and reduces food cravings. This may help reduce calorie intake and support efforts to maintain a healthy diet.

Nutritional supplements: Garcinia cambogia extract is widely used as an ingredient in dietary supplements and nutritional products. It is often included in formulas designed to support weight management, metabolism, and overall health. The purity and quality of Garcinia Cambogia extract are critical to the effectiveness and safety of these supplements.

Cosmetics and Skin Care Products: Garcinia Cambogia extract is also used in the cosmetics and skin care products industry. Its potential antioxidant properties make it an attractive ingredient in anti-aging and skin care formulations. Garcinia cambogia extract is often included in products such as creams, lotions, and serums to help promote a healthy and youthful complexion.

Application:

CAS number 90045-23-1 corresponds to Garcinia Cambogia extract. Garcinia cambogia is a tropical fruit native to Southeast Asia that contains a compound called hydroxycitric acid (HCA). Garcinia cambogia extract is derived from the peel and has a variety of uses. Here are some of its potential applications:

- 1. Weight Management:** Garcinia cambogia extract is often marketed as a weight loss supplement. It is believed that the HCA content in the extract may help suppress appetite, inhibit fat production, and increase fat burning. However, the weight loss effects of Garcinia Cambogia extract are still controversial and require further research.
- 2. Food additive:** Garcinia cambogia extract is sometimes used as a natural food additive. It can be added to foods and beverages to provide a sour or tangy flavor. However, it is worth noting that the concentration and use of Garcinia Cambogia extract as a food additive may vary based on local regulations and guidelines.
- 3. Traditional Medicine:** In traditional medicine practices, Garcinia Cambogia extract has been used for a variety of purposes. It has been used to aid digestion, relieve gastrointestinal problems, and as a natural remedy for rheumatism and joint pain. However, it is important to consult a healthcare professional before using garcinia cambogia extract for medicinal purposes.
- 4. Nutritional supplements:** Garcinia cambogia extract is sometimes used as an ingredient in dietary supplements. It is marketed as a source of antioxidants that can be combined with other ingredients to support overall health.

Advantage:

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.

2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.

3. After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

FAQ:

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often.

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
