

CAS 94-07-5 Plant Extract Weight Loss Synephrine Hcl Powder C9H13NO2

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: FIRSKY
- Model Number: 94-07-5
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

Product Specification

- Product Name: Synephrine
- CAS NO: 94-07-5
- Molecular Formula: C9H13NO2
- Molecular Weight: 167.21
- Highlight: 94-07-5 Plant Extract Weight Loss, Plant Extract Weight Loss C9H13NO2, Synephrine Hcl Powder C9H13NO2

Product Description

Synephrine CAS 94-07-5

Description

Synephrine is a naturally occurring alkaloid found in certain plants, primarily in the Citrus genus, including bitter orange (*Citrus aurantium*) and its extracts. It is chemically similar to, another compound known for its stimulant properties. Synephrine is often used in dietary supplements and weight loss products due to its potential effects on energy levels and metabolism.

Application

1. Stimulant Effects: Synephrine is believed to act as a mild stimulant, similar to. It may increase energy levels, mental alertness, and focus. Some individuals use synephrine to combat fatigue or enhance exercise performance. 2. Metabolic Support: Synephrine has been studied for its potential effects on metabolism and weight management. It is believed to stimulate the breakdown of stored fats and increase thermogenesis, which is the process of heat production in the body. These effects may contribute to increased calorie burning and fat loss. However, the scientific evidence supporting the efficacy of synephrine for weight loss is limited and mixed. 3. Appetite Suppression: Synephrine may have appetite-suppressing properties, helping to reduce feelings of hunger and food cravings. This effect is thought to be beneficial for individuals seeking weight loss or improved control over their food intake. 4. Sports Performance: Synephrine has been used in some sports and fitness supplements due to its potential effects on performance. It is believed to enhance energy levels and improve endurance during exercise. However, it's important to note that the World Anti-Doping Agency (WADA) has banned synephrine in certain quantities, so athletes should exercise caution and be aware of the regulations pertaining to its use in their specific sport. It's important to note that synephrine is a stimulant, and it may have side effects similar to other stimulant compounds. These can include increased heart rate, elevated blood pressure, and jitteriness. Individuals with cardiovascular conditions, high blood pressure, or other medical conditions should exercise caution when considering synephrine supplementation and consult with a healthcare professional before use. If considering the use of synephrine or products containing synephrine, it is advisable to consult with a healthcare professional or registered dietitian for guidance, especially if you have underlying health conditions or are taking other medications. They can provide personalized advice based on your specific circumstances and help you make informed decisions.

Advantage

1. Firsky (Wuhan) keeps working to provide customers with high-quality products steadily. We have established a sound internal quality management system and are constantly striving to improve quality, reduce deviation and waste. 2. If you have any questions, please feel free to ask questions, we will reply to your questions within 48 hours. 3. If you have any questions after receiving the goods, please feel free to contact us. If the loss is caused by us, we guarantee 100% compensation.
