

CAS 25513-46-6 Polyglutamic Acid Powder naturally occurring biopolymer

Our Product Introduction

for more products please visit us on firskytech.com

Basic Information

- Place of Origin: China
- Brand Name: FIRSKY
- Model Number: 25513-46-6
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

Product Specification

- Product Name: Polyglutamic Acid
- CAS NO: 25513-46-6
- Molecular Formula: C₅H₉NO₄
- Molecular Weight: 147.13
- Highlight: 25513-46-6 Polyglutamic Acid Powder, Polyglutamic Acid Powder Biopolymer, 25513 46 6

Product Description

Polyglutamic Acid CAS 25513-46-6

Description

A naturally occurring biopolymer, polyglutamic acid is generated from fermented soybeans or other plant sources. With exceptional moisturizing qualities, it is a water-soluble, biodegradable, and biocompatible substance.

Polyglutamic Acid is highly prized in cosmetic compositions because of its exceptional moisture-retaining capabilities. It is an excellent humectant for the skin since it can store more than 500 times its weight in water.

When applied topically, polyglutamic acid creates a barrier that keeps moisture from evaporating from the skin and encourages the development of a smooth, youthful-looking complexion. It is appropriate for all skin types, even sensitive skin, and is well-tolerated by the skin.

Application

Hydrating Skincare: To deliver deep and prolonged moisturization, enhance skin texture, and lessen dryness and flakiness, hydrating skincare products, such as serums, moisturizers, and masks, frequently contain polyglutamic acid.

Anti-Aging Formulations: The chemical is used in anti-aging treatments to help with wrinkles and fine lines while also promoting the resilience and general health of the skin.

Primer and cosmetics Base: To improve the lifespan of cosmetics and provide a smooth surface for application, polyglutamic acid is a component of primers and bases for makeup.

Advantage

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.
2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.
3. After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often.

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
