

99% Purity Kidney Bean Extract CAS. 85085-22-9

Our Product Introduction

for more products please visit us on firskytech.com

Basic Information

- Place of Origin: China
- Brand Name: Firsky
- Model Number: FS-85085-22-9
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

Product Specification

- Product Name: Kidney Bean Extract
- CAS NO: 85085-22-9
- Purity: 99%
- Shelf Life: 2 Years
- Highlight: **Kidney Bean Extract 85085-22-9, 99% Purity Kidney Bean Extract**

Product Description

Factory Supply High Quality Kidney Bean Extract CAS. 85085-22-9

Specifications:

Product Name:	Kidney Bean Extract
Synonyms:	Bean, ext.;White Kidney beans P.E;PHASEOLUS LUNATUS (GREEN BEAN) SEED EXTRACT;kidney bean extract;PHASEOLUS VULGARIS (KIDNEY BEAN) SEED EXTRACT;WhiteKidneyBeanextract;Bean extract;Einecs 285-354-6
CAS:	85085-22-9
EINECS:	285-354-6
Uses	Kidney Bean Extract has important functions such as antibacterial, anti-inflammatory, anti-mutation, lowering blood pressure, clearing heat and detoxifying, improving microcirculation, anti-tumor, and anti-oxidation.
Appearance:	yellow powder
Application	Kidney Bean Extract can be used as a raw material source for the production of white kidney bean peptides and amino acids.

Description:

We are a leading supplier of high-quality chemical raw materials, specializing in the distribution of kidney bean extracts. Our company is dedicated to providing reliable, pure kidney bean extract, a natural compound known for its potential health benefits. With its unique properties and diverse applications, kidney bean extract (CAS 85085-22-9) is a valuable ingredient for the dietary supplement, nutraceutical and food industries.

Kidney bean extract is derived from the seeds of kidney bean (*Phaseolus vulgaris*), a common leguminous plant widely cultivated for its nutritional value. It contains a key active ingredient called phaseolin, known for its potential effects on carbohydrate metabolism and weight management. The following are the main features and applications of kidney bean extract:

Carbohydrate metabolism: Kidney bean extract is known for its ability to inhibit alpha-amylase. This enzyme is responsible for breaking down complex carbohydrates into simple sugars that can be absorbed by the body. By inhibiting alpha-amylase, kidney bean extract may help reduce the digestion and absorption of dietary carbohydrates, which may help control blood sugar levels.

Weight Management: Kidney bean extract's potential effects on carbohydrate metabolism make it an attractive ingredient in weight management formulas. By reducing the digestion of carbohydrates, kidney bean extract may help support healthy weight management and prevent spikes in blood sugar levels. It is often included in dietary supplements designed to promote weight loss or weight management.

Nutritional supplements: Kidney bean extract is widely used as an ingredient in dietary supplements and nutritional products. It is often included in formulas targeting weight management, blood sugar support, and overall health. The purity and quality of kidney bean extract are critical to the effectiveness and safety of these supplements.

Food Applications: Kidney bean extract is also used in the food industry. It can be incorporated into foods such as bread, pasta and snacks to potentially reduce the impact of carbohydrates on blood sugar. By reducing the rate of carbohydrate absorption, kidney bean extract may help promote healthier blood sugar levels after meals. Incorporating it into food formulations could meet the growing demand for functional foods and healthier alternatives.

Application:

CAS number 85085-22-9 corresponds to kidney bean extract. Kidney bean extract is derived from the common kidney bean (*Phaseolus vulgaris*) and is known for its potential health benefits. Here are some of its applications:

- 1. Carbohydrate blockers:** Kidney bean extract is often marketed as a natural carbohydrate blocker. It contains an enzyme inhibitor called alpha-amylase, which inhibits the breakdown of complex carbohydrates into simple sugars. This mechanism is thought to help reduce the absorption of dietary carbohydrates and may aid in weight management and blood sugar control.
- 2. Weight Management:** Kidney bean extract is often used as an ingredient in weight loss supplements due to its potential carbohydrate-blocking properties. It is believed to help control weight by reducing the caloric impact of carbohydrate-rich meals.
- 3. Blood sugar control:** Kidney bean extract may also have a positive impact on blood sugar levels. By inhibiting carbohydrate digestion, it slows the release of glucose into the bloodstream, potentially supporting blood sugar control and insulin regulation. However, it is important to consult a healthcare professional before using kidney bean extract as a blood sugar management supplement.
- 4. Source of dietary fiber:** Kidney bean extract contains dietary fiber, which is beneficial to digestive health. Fiber helps promote regular bowel movements, supports intestinal health, and may help induce a feeling of fullness, which can aid in weight management.

Advantage:

1. Firsky (Wuhan) continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.

2. If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.

3. After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

FAQ:

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often.

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
