MF:	C ₁₄ H ₄ N ₂ Na ₂ O ₈
MW:	374.17
solubility	H ₂ O : 1.25 mg/mL (3.34 mM; Need ultrasonic)
form	Powder

Description

Our company is a leading supplier of chemical raw materials, specializing in the distribution of high-quality compounds such as Pyrroloquinoline quinone disodium salt. Our wide range of products includes the compound with the CAS number 122628-50-6.

Pyrroloquinoline quinone disodium salt, also known as PQQ disodium salt, is a unique and versatile compound with various potential applications in the pharmaceutical, nutraceutical, and cosmetic industries.

In the pharmaceutical industry, Pyrroloquinoline quinone disodium salt is known for its potential neuroprotective properties. It has been studied for its ability to support cognitive function, promote neuronal growth, and protect against age-related cognitive decline. Additionally, it may have antioxidant and anti-inflammatory effects, which could be beneficial in various therapeutic applications.

In the nutraceutical industry, Pyrroloquinoline quinone disodium salt is recognized as a potent antioxidant. It may contribute to overall antioxidant capacity, supporting cellular health, and energy metabolism. Its use as a dietary supplement is gaining popularity due to its potential benefits for mitochondrial health and overall well-being.

Moreover, Pyrroloquinoline quinone disodium salt shows promise in the cosmetic industry. It is believed to have properties that support skin health, including skin rejuvenation, anti-aging effects, and protection against oxidative stress. It may be included in skincare formulations targeting anti-aging, restoration, and nourishment.

Application

CAS 122628-50-6 corresponds to the compound Pyrroloquinoline quinone disodium salt.

Pyrroloquinoline quinone disodium salt (PQQ disodium salt) is a unique compound known for its potential benefits in various industries, including pharmaceutical, nutraceutical, and research.

In the pharmaceutical industry, Pyrroloquinoline quinone disodium salt has been studied for its potential neuroprotective properties.

In the nutraceutical industry, Pyrroloquinoline quinone disodium salt is recognized as a powerful antioxidant. It contribute to overall antioxidant capacity, supporting cellular health and energy metabolism. It is often included in dietary supplements targeting general wellness and vitality. Dosage recommendations and usage instructions would depend on various factors such as the desired health benefits, formulation guidelines, and regulatory requirements.

Moreover, Pyrroloquinoline quinone disodium salt is also used in research and scientific studies. Researchers investigate its potential therapeutic applications, mechanisms of action, and safety. It is utilized as a tool to study cellular processes, energy metabolism, and the role of antioxidants.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.

5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
