

cas 79725-98-7 Kojic acid dipalmitate EINECS 207-922-4 factory supply hot selling high purity

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Firsky
- Model Number: FS-CAS 79725-98-7
- Minimum Order Quantity: 1KG
- Packaging Details: 1kg, 5kg, 15kg, 20kg, 25kg can be packed in different specifications. Packaging can be customized according to customer requirements. Aluminium foil bag and carton.
- Delivery Time: 7-15 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 2000T

Product Specification

- Product Name: Kojic Acid Dipalmitate
- Shelf Life: 2 Years
- CAS NO: 79725-98-7
- Purity: 99%

Product Description

Product Description

Product Name:	Kojic acid
Synonyms:	4H-Pyran-4-one, 5-hydroxy-2-(hydroxymethyl)-;4H-Pyran-4-one,5-hydroxy-2-(hydroxymethyl)-;5-hydroxy-2-(hydroxymethyl)-4h-pyran-4-on;kojic;Pyran-4-one, 5-hydroxy-2-(hydroxymethyl);2-HYDROXYMETHYL-5-HYDROXY-4-PYRONE;5-Hydroxy-2-(hydroxymethyl)-γ-pyrone;Kojic acid
CAS:	501-30-4
MF:	C6H6O4
MW:	142.11
EINECS:	207-922-4
Melting point	152-155 °C (lit.)
Boiling point	179.65°C (rough estimate)
density	1.1712 (rough estimate)
refractive index	1.4434 (estimate)
storage temp.	Store below +30°C.
solubility	DMSO (Slightly), Methanol (Slightly, Sonicated)
pka	7.9(at 25)
form	Crystalline Powder

Description

The CAS number 79725-98-7 corresponds to the unique identifier for kojic acid dipalmitate in the Chemical Abstracts Service registry. Kojic acid dipalmitate is a modified form of kojic acid that has been esterified with palmitic acid. It is commonly used in the skincare and cosmetic industry as a skin-lightening and brightening agent.

Application

Here is a description of kojic acid dipalmitate and its properties:

Skin Lightening: Similar to kojic acid, kojic acid dipalmitate is known for its skin-lightening effects. It works by inhibiting the production of melanin, the pigment responsible for skin color. By reducing melanin production, it can help fade hyperpigmentation, dark spots, and uneven skin tone, resulting in a brighter complexion.

Stability: Kojic acid dipalmitate is more stable than kojic acid itself. It is less prone to degradation and discoloration when exposed to air, light, or heat. This stability makes it a preferred choice for cosmetic formulations.

Lipophilic Properties: Kojic acid dipalmitate is lipophilic, which means it has an affinity for fats and oils. This property allows it to penetrate the skin more easily and enhance its absorption. It also makes it suitable for use in oil-based skincare products.

Mildness: Kojic acid dipalmitate is considered to be a milder alternative to kojic acid. It is believed to have less potential for skin irritation or sensitization, making it suitable for individuals with sensitive skin.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

1. Please let me know which products you require and how many of each you need.
2. We will provide you with the best pricing right away, including delivery charges.
3. If the price seems reasonable to you, you can select a payment option to complete the transaction.
4. After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
5. Two days after the package is sent out, a tracking number and packing photo will be provided.
6. We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We accept payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
